Attention: *Infection Control and Hospital Epidemiology* Authors

In 2003, *Infection Control and Hospital Epidemiology* will be processing manuscript submissions via a new web-based peer review management system called Rapid Review (from Cadmus Professional Communications).

The system will be installed and tested in January 2003, and is expected to go live for author submissions beginning February 2003.

This online system will ensure quicker and easier manuscript submission, will provide immediate acknowledgement of submissions, and will allow authors to log in and check the status of an article as it moves through the system.

Watch for new author guidelines in the January 2003 issue.
