Registered Charity
No. 250358

Cover: Southern elephant-seal
Mirounga leonina (Jen and Des
Bartlett/Bruce Coleman Ltd). This
species was once hunted until the
numbers were so reduced that
there was no incentive for
continued commercial hunting.
Numbers have gradually recovered
and the estimated world population
is now about 600,000, equally
divided between the Atlantic coast
of South America and the
subantarctic region of the Southern
Ocean.

Colour cover donated by
Edward Wright Ltd.
We gratefully acknowledge
the support received for the
publication of *Oryx* from
Consolidated Goldfields PLC.

Colour separation donated by
Masterlith Ltd of Mitcham in
Surrey.

Subscriptions

The journal is published quarterly (January, April, July, October) and the subscription price for 1984 for non-members is £19.50 (UK), £23.50 (overseas), and \$45 (USA and Canada) post free.

The journal is published for the Fauna & Flora Preservation Society by Blackwell Scientific Publications Ltd. All matters relating to subscriptions, back numbers and offprints should be sent to Blackwell Scientific Publications Ltd, PO Box 88, Oxford, England.

Advertising

Enquiries should be sent to the Advertisement Manager, Blackwell Scientific Publications Ltd, Osney Mead, Oxford OX2 0EL, England (telephone 0865 240201).

Special Publications of the British Ecological Society

No. 3 Ecological Aspects of Radionuclide Release

Edited by P.J. Coughtrey. 1983. 294
pages, 108 illustrations. Paper, £29.80

This publication contains papers presented at a meeting of the Industrial Ecology Group of the British Ecological Society held in April 1982. The subject of the meeting was those aspects of radionuclide release to the environment which impinge on, interact with, or are related to ecological systems. The volume reflects the radical changes in emphasis currently taking place in environmental studies of radionuclides, and will interest a wide audience.

No. 2 Tropical Rain Forest: Ecology and Management

Edited by S.L. Sutton, T.C. Whitmore and
A.C. Chadwick. 1983. 512 pages,
90 illustrations. £28.50

With increasing concern in the world about the destruction of tropical rain forests, this volume will appeal to all those interested in discovering the current state of tropical forest science. It contains papers presented by the Tropical Group of the British Ecological Society at Leeds University in 1982, where the ecological subjects discussed were among those presently attracting the attention of tropical rain forest biologists.

No. 1 The Plant Community as a Working Mechanism

Edited by E.I. Newman. 1982. 128 pages,
40 illustrations. Paper, £4.50

'The theme of the volume is the understanding of the relationship of individual species to each other and the environment, and the ways in which plant community dynamics and structure are controlled... A useful addition to the ecological literature.' *Biologist*

Blackwell Scientific Publications Ltd.,
Osney Mead, Oxford OX2 0EL, UK

QUESTERS

The world through nature tours.

Travel with a purpose.

Search out plants and animals, birds and flowers. Explore rain forests, mountains and tundra, seashores, lakes and swamps. With Questers you have ample time to photograph, absorb, reflect. Your guide is a naturalist, tour parties are small, accommodations first-class.

Our current Directory of Worldwide Nature Tours describes tours to: *In the Americas*—Okefenokee, Alaska, Hawaii, Canadian Rockies, Churchill, Mexico, Amazon, Patagonia, Galapagos, Peru. *In Asia*—Nepal, Bhutan, Sri Lanka, Japan. *In Australasia*—New Zealand, Australia, Papua New Guinea. *In Africa*—Madagascar, Mauritius, Kenya. *In Europe*—Iceland, Greece, Ireland, Switzerland, Scotland.

Learn and discover with Questers. Write or call today for your free copy of the Directory of Worldwide Nature Tours.
