

Instructions for contributors

All papers must be submitted using Manuscript Central through the journal's website at: journals.cambridge.org/aso.

Submission requirements

Submission of an article is taken to imply that it has not been published elsewhere. Authors will be required to confirm on submission of their article that the manuscript has been submitted solely to this journal and is not published, in press, or submitted elsewhere.

Papers with more than one author must designate a corresponding author. The corresponding author must confirm that co-authors have read the paper and agree to its submission.

The corresponding author should prepare (a) a complete text and (b) complete text minus the title page, acknowledgements, and any running headers of author names, to allow blinded review.

Where the paper reports original research on human subjects, confirmation must be given that ethical guidelines have been met, including adherence to the legal requirements of the study country. Authors must state the full name of the body providing the favourable ethical review and reference number.

A declaration of sources of funding must be provided if appropriate. Authors must specify what role, if any, their financial sponsors played in the design, execution, analysis and interpretation of data, or writing of the study.

Contributors of articles or reviews accepted for publication will be asked to assign copyright, on certain conditions, to Cambridge University Press. The Publisher reserves the right to typeset material by conventional means.

Preparation of manuscripts

Authors are requested to bear in mind the multi-disciplinary and international readership of the journal when writing their contribution. Care must be taken to draw out the implications of the analysis for readers in other fields, other countries, and other disciplines.

The stereotypical presentation of individuals or social groupings, including the use of ageist language, must be avoided.

Articles must be between 3,000 and 9,000 words (excluding the abstract and references). All contributions (including reviews) should be typed double-spaced with at least one-inch or two centimetre margins throughout (including notes and the list of references).

Most research articles usually have the following sections in sequence: Title page, Abstract (200-300 words), Keywords (three to eight), Main text, Statement of ethical approval as appropriate, Statement of funding, Declaration of contribution of authors, Statement of conflict of interest, Acknowledgements, Notes, References, Correspondence address for lead author. The tables and figures should be presented one to a page in sequence at the end of the paper.

The title page should give the title of the article and the author(s)' names, affiliations and postal and email addresses.

Authors are asked to follow the current style conventions as closely as possible. Please consult a very recent issue of the journal and download the full instructions for contributors from the journal's website: journals.cambridge.org/aso.

Proofs and offprints

Proofs will be sent to the corresponding author as a PDF via email for final proof reading. The proofs should be checked and any corrections returned within 2 days of receipt. The publisher reserves the right to charge authors for excessive correction of non-typographical errors.

Authors will receive a PDF of the published paper and a copy of the journal, to go to the corresponding author. If offprints are required, these must be purchased at proof stage.

AGEING & SOCIETY

VOLUME 35 PART 5 MAY 2015

CONTENTS

Special Issue: Ageing and Ethnicity

- 897 MARIA ZUBAIR and MERIEL NORRIS: Perspectives on ageing, later life and ethnicity: ageing research in ethnic minority contexts
- 917 CHRIS PHILLIPSON: Placing ethnicity at the centre of studies of later life: theoretical perspectives and empirical challenges
- 935 SANDRA TORRES: Expanding the gerontological imagination on ethnicity: conceptual and theoretical perspectives
- 961 MARIA ZUBAIR and CHRISTINA VICTOR: Exploring gender, age, time and space in research with older Pakistani Muslims in the United Kingdom: formalised research 'ethics' and performances of the public/private divide in 'the field'
- 986 MERIEL NORRIS: The complexities of 'otherness': reflections on embodiment of a young White British woman engaged in cross-generation research involving older people in Indonesia
- 1011 HARRIET RADERMACHER and SUSAN FELDMAN: 'Health is their heart, their legs, their back': understanding ageing well in ethnically diverse older men in rural Australia
- 1032 KARAN JUTLLA: The impact of migration experiences and migration identities on the experiences of services and caring for a family member with dementia for Sikhs living in Wolverhampton, UK

Articles

- 1055 EUNHAE SHIN and YOUNG KYUNG DO: Basic Old-Age Pension and financial wellbeing of older adults in South Korea
- 1075 MD. ISMAIL TAREQUE, TOWFIQUA MAHFUZA ISLAM, KAZUO KAWAHARA, MAKIKO SUGAWA and YASUHIKO SAITO: Healthy life expectancy and the correlates of self-rated health in an ageing population in Rajshahi district of Bangladesh
- 1095 DOROTA LEPIANKA: How similar, how different? On Dutch media depictions of older and younger people

Reviews

- 1114 BRUCE GRIERSON: *What Makes Olga Run? The Mystery of the 90- Something Track Star and What She Can Teach Us About Living Longer, Happier Lives* (Hannah R. Marston)
- 1115 BETH BAKER: *With a Little Help from Our Friends: Creating Community as We Grow Older* (Bonnie Campbell)
- 1117 SARAH MCGANN: *The Production of Hospice Space: Conceptualising the Space of Caring and Dying* (Glenys Caswell)
