The History of Medicine from Chicago

The Discovery of Insulin

Twenty-fifth Anniversary Edition

Michael Bliss

"Scrupulously researched and compellingly readable. . . I wholeheartedly recommend it to anyone with an interest in diabetes, medical history, or medical scandal and gossip."—*British Medical Journal*

"The story of insulin's discovery ought to be a novel . . . but Michael Bliss's splendid account is just as absorbing as any fiction."—*Isis*

Paper \$22.50

The Greatest Killer

Smallpox in History

Donald R. Hopkins

"Nowhere else that I know is there to be found such a compact account of smallpox in all five continents and of its impact on the history of each. . . I found it a sobering and broadening experience to be exposed to Hopkins's story—there will be few people who would not benefit from reading it."

—Keith Dumbell, *Nature*

"A superb book."—former President Jimmy Carter

Paper \$18.00

Healing the Land and the Nation

Malaria and the Zionist Project in Palestine, 1920-1947

Sandra M. Sufian

"*Healing the Land and the Nation* is a truly innovative and exciting history of the coproduction of a healthy environment, healthy bodies, and the modern settler nation-state. Sufian studies this exceptionally fraught and controversial colonial site with exemplary balance and sensitivity."—Warwick Anderson, University of Wisconsin-Madison

About IDSA

The Infectious Diseases Society of America (IDSA) represents physicians, scientists, and other health care professionals who specialize in infectious diseases. IDSA's purpose is to improve the health of individuals, communities, and society by promoting excellence in patient care, education, research, public health, and prevention relating to infectious diseases.

IDSA's Core Values

- Enhancing care of children and adults based on sound scientific evidence
- Advancing the discipline of infectious diseases as a foundation of medicine and public health
- Promoting and sharing knowledge to reduce the human and societal toll from infectious diseases
- Advocating for sound and humane public policy
- Promoting collaboration and cooperation among, and services for, members and other professional colleagues

Benefits of Membership

Education and Information

- Subscription to *The Journal of Infectious Diseases* and *Clinical Infectious Diseases*
- Discounts at IDSA's Annual Meeting
- Special conferences and CME activities on important issues such as rapid diagnostics, bioterrorism, and medical errors
- Practice guidelines and other ID resources
- A subscription to *IDSA News*

Professional Development and Research Opportunities

- Postdoctoral Fellowships and Young Investigator Awards
- Annual Society Awards honoring individuals for outstanding contributions to research, teaching, and patient care
- Online ID/HIV Career Center
- The annual Fellows Meeting, offering career strategies in clinical practice
- The Emerging Infections Network – a sentinel network of ID consultants reporting on unusual cases and phenomena encountered in their practices
- The HIV Medicine Association, which promotes research, education, quality care, and prevention of HIV

Advocacy and Representation

- Recognizing the urgency of antimicrobial resistance, IDSA fosters research and development of new antibiotics
- IDSA promotes ID consultative services to patients and health care systems and advocates for increased coverage and reimbursement for ID services
- IDSA supports federal funding for biomedical research and the adoption of science-based government policies on immunization, public health, pandemic influenza, infection control, and other areas related to infectious diseases
- IDSA's public policy agenda includes quality microbiology, bioterrorism defense, HIV care, and food safety
- IDSA is a founding organization in the National Network for Immunization Information (NNii), which provides the public, health professionals, policymakers, and the media with up-to-date, scientifically valid information about vaccines and immunizations
- Affiliated state and regional societies provide forums to address infectious diseases issues at the local level
