BBL® Crystal™ MRSA ID.

In 4 Hours, A New Age Dawns. ● *

It's a significant development for your laboratory and your hospital. **BBL® Crystal™** MRSA ID. The first 4-hour test that accurately identifies methicillin-resistant *Staphylococcus aureus* strains (MRSA's). So your lab can rapidly identify nosocomial infections. Your physicians can start effective patient therapy sooner. And your hospital can deliver better patient care.

With **BBL® Crystal™**, all you do is prepare the

broth, inoculate the wells, snap on the lid and incubate 4 hours. Under a UV light source, MRSA's visibly fluoresce bright orange. That's all there is to it!

Join the new age. For tremendous ease of use, speed, and time and money savings in fighting infection, use **BBL® Crystal™** MRSA ID. Available now from your Becton Dickinson Microbiology Systems distributor.
