## ***Very Important Plane for V.I.P.'s***

This Very Important Plane is for Very Important People—the Shell-Mex and B.P. staff who look after general aviation. This is a symbol of the interest taken by Shell-Mex and B.P. in the whole field of private flying and is part of their overall care for safety in the air. You'll see this V.I.P. at important displays like the King's Cup Air Race, and at airports up and down the country. It carries men who make sure that the needs of private fliers are really looked after, men who ensure that the Shell-Mex and B.P. service is kept in perfect order. Look out for this V.I.P.—it'll remind you that, whenever you fly—Shell-Mex and B.P. are there to serve you.

**Safety in the air—care of Shell-Mex and B.P.**

# Engine intelligence — at a glance

Designed for rapid, high accuracy scanning of engine parameters, these new counter/pointer engine indicators form a compact modular instrument package.

Based on unequalled experience in engine instrumentation and servo driven counter/pointer displays for flight instruments, this new family of engine indicators has been developed for S.S.T. and other applications and is specified

AS  
SPECIFIED FOR  
THE CONCORDE

for the Concorde.

Each instrument is housed in a separate 2ATI case for ease of maintenance and important features are the commonality of many components and assemblies, integral lighting and the provision of separate outputs for flight recording or A.I.D.S.
