## THEATRE RESEARCH / RECHERCHES THEATRALES

The International Federation published the journal *Theatre Research/Recherches Théâtrales* from 1959 to 1975 when it was succeeded by *Theatre Research International*. During these years many important articles of original research were published covering the whole field of theatre history from the earliest times, and particularly Shakespeare and the Elizabethan period, to more recent figures such as Strindberg, Craig and Beckett. There have been special issues on the themes of Opera, the Playwright as Director, and Reinhardt; a check-list of world theatre on records; and reports on International Conferences and Symposia of the I.F.T.R. In all 13 volumes were published in 35 issues. Back issues are still available.

University and institutional libraries, and especially those who have recently subscribed to the new journal *Theatre Research International*, are recommended to take this opportunity of completing their holding of the earlier issues of this publication, while copies last.

*Price: per issue £1.75 (\$4); per volume £3.50 (\$8)*

*It is intended to publish one final volume (Vol. XIV), which will contain an Index to the fourteen volumes, towards the end of 1976.*

**A few complete runs of the 14 volumes, including the Index, will be available at £50 (\$115)**

A Compact Documentary Life

---

**S. Schoenbaum**

---

'A splendid formidable book' wrote Geoffrey Bullough in *The T.L.S.* when *William Shakespeare: A Documentary Life* was published in 1975. This new book answers the demand for a cheaper, more compact edition. It contains the full text of the original, together with fifty of the documents reproduced smaller, and makes the resources of the world's greatest Shakespeare collections instantly accessible. Illustrated £6.75

# **The Origins of Shakespeare**

---

**Emrys L. Jones**

---

This book asks the question 'How did Shakespeare happen?' It is an attempt to reduce the mysteriousness of Shakespeare's beginnings by showing on the one side the great richness of his cultural inheritance and on the other the peculiarly 'Tudor' qualities of his earliest efforts. New light is thrown on the medieval provenance of his tragedies and history plays, but the chief purpose throughout is to see the plays more clearly 'as in themselves they really are'. £10

# **The Oxford Ibsen**

---

Volume VIII: *Little Eyolf, John Gabriel Borkman, When We Dead Awaken*

---

**Edited and translated by  
James Walter McFarlane**

---

With this volume, the Oxford Ibsen achieves completion. In his illuminating introduction Professor McFarlane writes of the critical problems presented by these late plays and of the subtle irony with which Ibsen signals the disparity between what is spoken and what is meant. £10.50

A Study of Asides and Related Conventions  
in Greek Drama

---

**David Bain**

---

The aside is a familiar device in European drama. Dr. Bain argues that it originated in Greek tragedy, and examines its occurrences in New Comedy and particularly in the works of Menander. For the student of drama in general, there is much to think about in this book on the extent to which author, actors, and audience are involved in the successful realization of a dramatic work. £9.75 *Oxford Classical and Philosophical Monographs*
