## Original Communications--

1. A CLASSIFICATION OF DISEASES OF THE NOSE. By LENNON BROWNE, F.R.C.S.E p. 273.
2. POST-NASAL GROWTHS. By CHARLES WARDEN, M.D, p. 280.
3. ON THE USE OF THE DENTAL DRILL IN THE TREATMENT OF DEVIATION AND SPURS OF THE NASAL SEPTUM. By ADOLF BRONNER, M.D., Surgeon to the Bradford Ear and Eye Hospital, p. 282.

## Reports of Meetings--

1. THE BRITISH LARYNGOLOGICAL AND RHINOLOGICAL ASSOCIATION, p. 284.
2. THE FRENCH CONGRÈS DE LARYNGOLOGIE, ETC., p. 291.
3. THE AMERICAN LARYNGOLOGICAL ASSOCIATION, p. 295.

## Review--

MASSEI'S PATHOLOGY AND THERAPEUTICS OF THE PHARYNX, NASAL FOSSÆ AND LARYNX, p. 296.

## New Preparations and Instruments--

CAFFYN'S LIQUOR CARNIS ; PEPSALIA ; THE WALLICH INHALER ; JOAL'S SPIROMETER, 299.

# THE THROAT AND VOICE.

LONDON.]

JULY.

[1890

## CHLORATE OF POTASH TABLOIDS.

FOR AFFECTIONS OF THE VOICE, THROAT AND RESPIRATORY SURFACES GENERALLY.

By using the Tabloids the drug is effectually brought in contact with the oral mucous surfaces as a continuous gargle, and its specific action made certain. In acute sore throat, Chlorate of Potash "usually relieves the uneasiness in a few hours" (Cohen). "It is used in ulcerated mouth and follicular pharyngitis, and has been employed in croup, diphtheria, and spasm of the larynx" (Brunton).

"Of convenient size, they are beautifully made; and, as they dissolve slowly in the mouth, are well-suited for throat affections."—THE LANCET.

Supplied to the Medical Profession in beautifully graven white metal boxes, blue silk label, at 4d. and 9d. each. Retail prices, 6d. and 1s. each.

## CHLORATE OF POTASH & BORAX TABLOIDS.

The Tabloids afford an agreeable form in which to administer Chlorate of Potash and Borax.

Supplied to the Medical Profession in beautifully graven white metal boxes, pink silk label, at 4d. and 9d. each. Retail Prices, 6d. and 1s. each.

## CHLORIDE OF AMMONIUM TABLOIDS.

The solvent and discutient as well as antiphlogistic powers of Chloride of Ammonium are well known, and have led to its extensive employment in cases of sore throat and bronchitis, attended with abundant secretion of thick and tough mucus or phlegm. The Tabloids slowly dissolving secure direct and continuous contact with the inflamed surface. They quickly mitigate irritation, and lessen expectoration.

Two or three of the Tabloids will sometimes entirely relieve coughs that have long resisted treatment with ordinary remedies.

Supplied to the Medical Profession in bottles, at 5d. and 1s. 1d. each. Retail prices 6d. and 1s. 6d. each.

## VOICE TABLOIDS.

Composed of COCAINE, Chlorate of Potash and Borax.

Impart a clear and silvery tone to the voice. Easily retained in the mouth while singing or speaking. Now used by the leading singers and public speakers throughout the world.

DIRECTIONS.—A single Tabloid may be slowly dissolved in the mouth to remove huskiness or hoarseness.

Supplied to the Medical Profession in beautifully graven white metal boxes, blue silk label, at 8d. and 1s. 4d. each. Retail prices, 1s. and 2s. per box.

## SAL PRUNELLA TABLOIDS.

(NITRATE OF POTASH.)

"A popular remedy, sometimes successful in mild cases of incipient inflammatory sore throat, is a small piece of nitre allowed to dissolve slowly in the mouth" (Waring).

DIRECTIONS.—One or more (5 gr.) Tabloids should be dissolved slowly in the mouth for the local effect.

Supplied to the Medical Profession, in bottles of 100, at 1s. 2d. each. Retail price, 1s. 6d. each.

## HAZELINE.

The Witch Hazel Plant.

This drug is highly commended by the British Medical Association's Committee on Therapeutics. Hazeline, being prepared from the fresh green twigs, contains all the valuable volatile principles of the plant Witch Hazel, and is much more uniform and reliable in its action than are the tinctures, fluid extracts, etc., prepared from the dried bark.

DIRECTIONS:—In Catarrh or cold in the head it may be sniffed up the nostrils with an equal part of tepid water.

Dose for irritated or inflamed throat and lungs, half to one teaspoonful occasionally.

Supplied to the Medical Profession, in  $\frac{1}{2}$  and 1 lb. bottles, at 1s. 2d. & 3s. 6d. each. Retail Prices, 1s. 6d. & 4s. 6d. each.

## VEREKER IMPROVED CHLORIDE OF AMMONIUM INHALER.

"The neutral vapour of Chloride of Ammonium removes unhealthy and offensive secretions, and restores the lung diseased or weakened nasal and respiratory mucous membrane to a healthy state, so that in cases of catarrh, where thickening, induration and irritation exist a most decided improvement is brought about in a short time." In "throat-cough," phlegm, irritation, and relaxation and weakness of the throat, it acts as a most effective alterative and tonic to the mucous membrane.

Dr. FRANKS, Dublin University, says:—"It is the best I have ever used, and I think I have tried all."

Dr. SMYLY, Ex-Pres. Royal College of Surgeons, Ireland, says:—"It is the best Inhaler for Chloride of Ammonium I have met with."

Supplied to the Medical Profession at 5s. each. Retail 7s. each.

Burroughs, Wellcome & Co., Snow Hill Buildings, London, E.C.,  
Will be happy to supply trial Specimens of Pharmaceutical preparations to Medical Men free on request.
