KANSAS

Justice Brennan Liberal Champion

Seth Stern and Stephen Wermiel

“Provides the most comprehensive and well-organized look at the legendary liberal jurist to date. The authors dig below the popular cliché of Brennan as the Constitution’s Gene Kelly—all twinkling eyes and glad-to-see-ya Irish charm—to reveal the complicated (and quite conservative) man beneath.”—*New York Times*

“Scrupulously honest, consistently fair-minded, and long-awaited, *Justice Brennan* is a supremely impressive and definitive work that will long be prized as perhaps the best judicial biography ever written.”—*Washington Post*

688 pages, 28 photos, Paper \$24.95

Father, Son, and Constitution

How Justice Tom Clark
and Attorney General Ramsey Clark
Shaped American Democracy

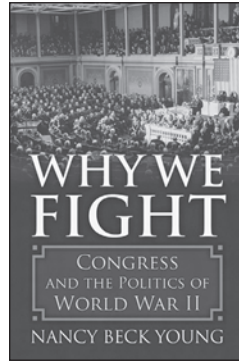

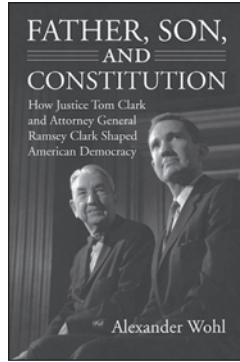

Alexander Wohl

“The compelling story of Tom and Ramsey Clark has been hiding in plain sight for decades. It took Alex Wohl’s prodigious research to unearth it and show how, as major actors in some of the great legal struggles of twentieth century America, father and son became civil libertarians almost in spite of themselves.”—*Linda Greenhouse*, author of *Becoming Justice Blackmun*

“A notable contribution to the political, legal, and social history of our times.”

—*Lawrence M. Friedman*, author of *A History of American Law*

448 pages, 29 photos, Cloth \$39.95

Why We Fight

Congress and the Politics of World War II

Nancy Beck Young

“This important and fascinating work reveals that the decisive struggles of the 1940s took place not only on military battlefields but on Capitol Hill as well. An ambitious and original approach to American political history, essential for scholars and full of insight for citizens who wonder what has happened to Congress’s bygone culture of practical compromise and effective governance.”—*Geoffrey Kabaservice*, columnist, *The New Republic*, and author of *Rule and Ruin*

376 pages, 17 photos, Cloth \$39.95

Reining in the State

Civil Society and Congress in the Vietnam and
Watergate Eras

Katherine A. Scott

“A powerful study that explains why the American political system requires the dedication and energy of citizen activists, editors, journalists, and private organizations to push back against secrecy and executive violations.”—*Louis Fisher*, author of *The Constitution and 9/11: Recurring Threats to America’s Freedoms*

248 pages, 12 photos, Cloth \$34.95

NEW IN PAPERBACK

Before Earth Day

The Origins of American Environmental Law,
1945–1970

Karl Boyd Brooks

“An enthusiastic, generous, inclusive, daring, and insightful exploration of that long-rumored beast described as ‘environmental law.’ Beautifully written and wonderfully revealing.”—*William H. Rodgers, Jr.*, author of *Treatise on Environmental Law*

286 pages, 19 illustrations, Paper \$24.95
