

OBITUARY.

WILLIAM LINCOLN BALLENGER, CHICAGO, U.S.A.

Born December 26, 1861. Died December 22, 1915.

THANKS chiefly to the invention of the ingenious swivel-knife, so generally used in resections of the septum, few names of American laryngologists are more frequently mentioned in our clinics than is that of our late colleague of Chicago. But his name will be known and will be remembered for other work. It was in the year 1899 that we first saw him over on this side; at the Sixth International Congress of Otology, and many of us can remember his youthful and vigorous appearance, his enthusiasm, and his charm. He had then, after some eight or nine years of useful general practice, devoted himself to otolaryngology and had just started in Chicago. The last time we saw him over here was at Liverpool, at the meeting of the British Medical Association in 1912. Then, his friends were equally struck with his aged and ill appearance. We did not know that he was already stricken with diabetes. Nevertheless, he continued in active practice until December, 1913, when he retired from Chicago to his country farm, where, after two years of suffering, he passed away.

Between these periods he had put in a full measure of strenuous life. He was an active member of many medical societies, including that select body, the American Laryngological Association. He was always one of the strong defenders of the recent innovation of complete enucleation of the tonsils. He was the author of two text-books, the first appearing in 1900, and the second and larger work on "Diseases of the Nose, Throat, and Ear," stood its ground for many years as one of the most important American text-books. Needless to say, that in his own country he was esteemed as a strong, able, and congenial colleague. No one was more popular during his visits to this country.

StClair Thomson.

NOTES AND QUERIES.

On the recommendation of the Lord Provost, Dr. John McIntyre, Glasgow, has been appointed Deaputy Lieutenant and a Justice of the Peace of the County of Glasgow.

SUBSCRIPTION TO THE JOURNAL OF LARYNGOLOGY, RHINOLOGY, AND OTOTOLOGY.

The general rise in prices owing to the war has hitherto been met in the case of the JOURNAL OF LARYNGOLOGY, RHINOLOGY, AND OTOTOLOGY by the economies which the management have been able to effect in production, but in spite of all efforts the proprietors find themselves compelled to raise the annual subscription of the JOURNAL to 30s. (\$8), or to 3s. for each number.

The change is made with the consent of the Editorial Committee.

BOOK RECEIVED.

Otosclerosis. By *Albert A. Gray, M.D., F.R.S.E.*, etc. London: H. K. Lewis & Co., Ltd. Price 12s. 6d. net.

A. GASCOIGNE WILDEY, Dep. Surg.-Gen., R.N.
MARGUERITE WILSON, M.B., Ch.B., Glasgow.

THIS year's volume aims, like its predecessors, to be a faithful reflex of current Medical and Surgical thought. It is, therefore, of necessity coloured by the consideration of the many new problems which are thrust upon us by the War. These problems will confront the general Practitioner on every hand, and he must be prepared to deal with them.

Hence the current volume has a unique value, in that it furnishes the reader with a careful review of the latest achievements in War Surgery and Medicine, which will be of value now and in the years to come, and which cannot be obtained from any other source.

The civil side of the Practitioner's work has, of course, not been neglected.

The new "Annual" continues to be, as in the past, a digest of the best modern teaching culled by experts from the medical literature of the world.

BRISTOL, ENG.: JOHN WRIGHT & SONS LTD.

LONDON: SIMPKIN, MARSHALL, HAMILTON, KENT & CO. LTD.

Dr. Irwin Moore's UNIVERSAL FORCEPS

For Removing Foreign Bodies from the Œsophagus, Trachea, or Bronchi.

The "Allenburys" (TRADE MARK)

(MEDICATED) Throat Pastilles

Efficient

Palatable

The basis of the "Allenburys" Throat Pastilles is a special *pâte de jujube*. The pastilles are demulcent, soluble and palatable, and contain accurate amounts of pure active drugs. They dissolve slowly and uniformly, so ensuring the thorough suffusion of the mucous membrane, and the prolonged continuous direct effect of the active ingredients.

The following pastilles are largely used, and have been found from long practical experience to be very efficacious.

No. 9. Menthol, Cocaine and Red Gum

Menthol, gr. 1/20th; Cocaine, gr. 1/40th; Red Gum, gr. 2

No. 23. Eucalyptus and Red Gum

Eucalyptus, $\frac{1}{2}$ minim of the Oil; Red Gum, gr. 1

No. 28. Compound Guaiacum

Guaiacum, gr. 1; Chlorate of Potash, gr. 2; Red Gum, gr. $\frac{1}{2}$

No. 29. Compound Rhatany

Extract of Rhatany, gr. 2; Cocaine Hydrochlor., gr. 1/40th

No. 38. Chlorate of Potash, Borax and Cocaine

Chlorate of Potash, gr. 2; Borax, gr. 1; Cocaine, gr. 1/40th

No. 75. Formaldehyde and Menthol

Formaldehyde, min. 1; Menthol, gr. 1/40th

No. 77. Formaldehyde and Cinnamon Oil

Formaldehyde, min. 1; Ol. Cinnamon, min. $\frac{1}{2}$

1/- box of any variety, with detailed list, free to Medical Men in Great Britain.

IMPORTANT.—To ensure the supply of these active and reliable medicinal products, medical men should designate the "ALLENBURYS" Pastilles in their prescriptions.
