

**SUBJECT INDEX**  
**VOLUME 37, NOS. 1 AND 3, 1995<sup>1</sup>**

- Accelerator Mass spectrometry (AMS), 11–19, 53–62, 71–74, 75–79  
Agriculture, <sup>14</sup>C evidence for, 917–930  
Archaeological dating, 11–19, 21–32, 851–859, 899–916, 917–930, 931–941, 965–968  
Atlantic Ocean, North, 53–62, 63–70, 875–882  
Atmospheric measurements, 39–50, 883–888, 961–962
- Bomb <sup>14</sup>C, 883–888  
Bootstrap (statistical method), 845–849
- Calibration, 33–38, 75–79, 845–849, 955–959; curves, 851–859, 875–882, 963–964  
<sup>14</sup>CO<sub>2</sub>, 39–50, 883–888  
Climate and paleoclimate, 7–10, 53–62, 63–70, 81–86, 899–916  
Cosmic rays, 889–898
- δ<sup>13</sup>C, 861–874, 943–954  
Dead Sea Scrolls, 11–19, 21–32  
Deforestation, anthropogenic, 899–916  
Dissolved inorganic carbon (DIC), 861–874
- Ethanol, 943–954
- Fjord water, dating, 875–882  
Fractionation, isotope, 883–888, 943–954  
Fossil fuel effects, 39–50
- Geomorphology, 889–898  
Global change, 53–86  
Greece, 931–941
- Hawaii, 851–859  
High-precision dating, 33–38  
Histograms, 851–859  
Holocene, 1–6, 7–10, 71–74
- Ice cores, 63–70  
Icelandic Vedde ash, 53–62  
Intercomparison, laboratory, 33–38, 955–959  
Isotope ratio mass spectrometry, 943–954
- Lake Gościąg, 63–70, 71–74  
Lake sediments, 71–74, 75–79, 81–86  
Late Glacial, 1–6, 7–11, 53–86  
Liquid Scintillation Counting (LSC), 33–38, 943–954  
Loess, 81–86
- Mammoths, 1–6, 7–10  
Marine samples, 53–62, 875–882  
Marine reservoir correction, 53–62  
Mollusk shells, 875–882
- New Zealand, 899–916
- Oak, Irish, 33–37, 963–964, 965–968
- Pollen diagrams, 899–916  
Polynesia, 917–930
- Rocks, ages and dating, 889–898
- Sample preparation, 11–19, 21–32, 33–38, 931–941  
Sedimentology, 899–916, 931–941  
Sediments, <sup>14</sup>C dating of, 931–941  
Settlement, <sup>14</sup>C evidence for, 899–916  
Siberia, 1–6  
Statistical analysis, 845–849, 851–859  
Stratosphere, 961–962
- Thera volcano, 845–849  
Tritium, 39–50  
Troposphere, 883–888, 961–962  
Turin, Shroud of, 845–849
- Vacuum distillation, 861–874  
Varve chronologies, 63–70, 71–74, 75–79, 81–86  
Vegetation change, 899–916
- Water, pore, 861–874  
Wiggle-matching, 963–964, 965–968  
Wine, isotope measurement of, 943–954
- Younger Dryas, 7–10, 53–62, 63–70, 71–74, 75–79

<sup>1</sup>See Vol. 37, No. 2, 1995 for that issue's Subject Index.
