Contributors

Myriam Cloodt is assistant professor of international business and strategy at Eindhoven University of Technology in the Netherlands. Her research interests include mergers and acquisitions, alliances, networks, and open innovation, and she has published papers in *Research Policy* and *International Studies of Management and Organization*.

James W. Cortada conducts research on the history and management of information technology as applied in business and government. He is the author or editor of more than fifty books, including a three-volume work *The Digital Hand*, which will be completed in 2008; *Making the Information Society* (2002); and *A Nation Transformed by Information: How Information Has Shaped the United States from Colonial Times to the Present*, which he coedited with Alfred D. Chandler Jr. in 2000. He has held a variety of sales, consulting, and managerial positions at IBM for more than thirty years.

Mila Davids is assistant professor in the Department of Technology Management at Eindhoven University of Technology, the Netherlands, where she teaches the history of technology. As one of the editors of a project on Dutch business in the twentieth century she will be overseeing the volume on innovation in Dutch business and on the knowledge infrastructure.

John Hagedoorn is professor of international business and strategy at the University of Maastricht, the Netherlands, where he conducts research on alliances, networks, and technology. His most recent papers have been published in the *Journal of Financial Economics*, the *Academy of Management Review*, *Research Policy*, the *Journal of International Business Studies*, and the *British Journal of Management*.

Michael J. Lynskey is researcher at the Saïd Business School, University of Oxford. He is currently a research fellow for the Japan Society for the Promotion of Science at the Institute of Innovation Research, Hitotsubashi University, Tokyo. Among his recent publications is *Entrepreneurship and Organization: The Role of the Entrepreneur in Organizational Innovation*, which he coedited with Seiichiro Yonekura, and he has also written a number of articles on the changing business environment in Japan, which have appeared in journals such as *Research Policy*, *Industry and Innovation*, and the *International Small Business Journal*. His research interests include entrepreneurship, innovation, and strategy.

Mary O'Sullivan is associate professor of management at the Wharton School of the University of Pennsylvania. She is the author of *Contests for Corporate Control: Corporate Governance and Economic Performance in the United States and Germany* (2000), and she has published articles in the areas of corporate governance, comparative capitalism, and financial history. She is currently writing a second book on the historical relationship between securities markets and industrial dynamics in the United States from the 1880s until the present.

Nadine Roijackers is assistant professor at the Faculty of Technology Management, Eindhoven University of Technology, the Netherlands. Among her research interests are innovation, alliances, and networks, and she has published articles on these topics in *Research Policy* and the *British Journal of Management*.

Geert Verbong is associate professor of the history of technology at Eindhoven University of Technology in the Netherlands, where he teaches courses on the history of energy systems and renewable energy. He recently published books on the history of renewable energy in the Netherlands (2001) and on the Dutch Energy Research Centre (2005).
