Anatomical Society of Great Britain and Ireland

Future meetings

13–15 July 1999. University of Glasgow. This meeting will feature a symposium on the neurobiology of the basal ganglia (to include basic neuronal properties, disease aspects including imaging and transplantation, and evolutionary aspects).

11–16 September 1999. 15th Congress of the International Federation of Association of Anatomists, Rome, Italy.

17 September 1999. Royal Free and University College Medical School, University of London, Royal Free Campus. One-day symposium on the biology of ageing.

5–7 January 2000. Royal Holloway College, University of London. This will include a symposium on phenotypic changes in epithelial development.

24–26 July 2000. University of Cambridge; this will be a tripartite meeting with the Anatomische Gesellschaft and the Nederlandse Anatomen Vereniging.

The Wellcome Trust

An exhibition entitled *The New Anatomists* will be held in the Two 10 Gallery at the Wellcome Trust Offices, 210 Euston Road, London NW1 2BE from 11 March – 16 July 1999. It is part of a series exploring the relationship between science and art. The exhibition is open from 9 am to 6 pm on weekdays, public holidays excluded. Admission is free.

Erratum

In the article by S. Matsushita and others (*J. Anat.* **193**, 587–597, 1998), in Table 3, line 3, column 3 should read ‘ $- \sim +$ ’ and line 39 ‘ $\pm \sim +^{h,i}$ ’.
