Diagrams should be in India ink and large enough to be informative after reduction.

All illustrations should be referred to as figures, numbered consecutively, not included in the body of the text and all captions should be typed on a separate piece of paper.

Colored illustrations cannot usually be accepted unless the author is prepared to assist with the cost of reproduction.

**REFERENCES** to authors outside the context of the sentence should read (Name, Year). *i.e.* "However, a recent study (Bird and Iverson, 1975) showed a decreased, etc." Authors mentioned within the context of the sentence should read Name (Year). *"i.e.* . . . twenty years since Ecker and Reimenschender (1951) demonstrated, etc." References should be typed in alphabetical order on a separate sheet and include author's name, initials, year, title in full, publication in full, volume, first and last page, *i.e.* Isacson, P. (1967). Myxoviruses and autoimmunity. *Progress in Allergy*, 10, 256-292.

Textbook references should include name of text, author's name, page number, publisher and city.

**REPRINTS:** Fifty reprints will be supplied free if ordered when the galley

proofs are returned. More may be ordered at a nominal charge. Corrections and changes in the galley proofs, apart from printer's errors may be charged to the author.
