VOL. XXVI. PART IV.—FOR THE SESSION 1871 72

---

### CONTENTS.

---

- ART. XXII.—*On the Decomposition of Forces externally applied to an Elastic Solid.* By  
W. J. MACQUORN RANKINE, C.E., LL.D., F.R.SS. L. & E. . . . . 715
- XXIII.—*On the Geometrical Mean Distance of Two Figures on a Plane.* By Professor  
J. CLERK MAXWELL, F.R.S., . . . . . 729
- XXIV.—*On the Lunar Diurnal Variation of Magnetic Declination at Travandrum, near  
the Magnetic Equator, deduced from Observations made in the Observatory  
of His Highness the Maharajah of Travancore, G.C.S.I.* By J. A. BROUI,  
F.R.S. (Plates XXVI.—XXVIII.) . . . . . 735
- XXV.—*On the Occurrence of Ziphius cavirostris in the Shetland Seas, and a Comparison  
of its Skull with that of Sowerby's Whale (Mesoplodon Sowerbyi).* By  
Professor TURNER. (Plates XXIX. and XXX.) . . . . . 759
- XXVI.—*Remarks on the Ipecacuan Plant (Cephaelis Ipecacuanha, Rich.), as cultivated  
in the Royal Botanic Garden, Edinburgh.* By JOHN HUTTON BALFOUR,  
M.D., F.R.S., Sec. R.S.E., F.L.S., Hon. Mem. Pharm. Soc., and Professor  
of Medicine and Botany in the University of Edinburgh (Plates XXXI.  
and XXXII.) . . . . . 781

EDINBURGH:  
PUBLISHED BY ROBERT GRANT & SON, 54 PRINCES STREET.  
AND WILLIAMS & NORGATE, 14 HENRIETTA STREET, COVENT GARDEN, LONDON.

MDCCLXXII.

DIRECTIONS TO THE BINDER FOR PLACING THE PLATES IN THIS VOLUME.

Plate	I. } II. } III. }	Illustrating Mr J. Clerk Maxwell's Paper on Reciprocal Figures, Frames, and Diagrams of Forces, . . . . .	To face page	1
	IV. {	Illustrating the Rev. Thomas Brown's Paper on the Old River Terraces of the Earn and Teith, viewed in connection with certain Proofs of the Antiquity of Man, . . . . .		149
	V. ) VI. { VII. { VIII. }	Illustrating Professor Turner's Paper, Account of the Great Finner Whale ( <i>Balenoptera Sibbaldi</i> ) stranded at Longniddry. Part I.—The Soft Parts,		197
	IX. { X. }	Illustrating Dr W. C. M'Intosh's Paper on some Points in the Structure of <i>Tubifex</i> , . . . . .		253
	XI. ) XII. { XIII. { XIV. { XV. } XVI. }	Illustrating Dr James Bell Pettigrew's Paper on the Physiology of Wings, being an Analysis of the Movements by which Flight is produced in the Insect, Bat, and Bird, . . . . .		321
	XVII. } XVIII. }	Illustrating Professor Turner's Paper on the Gravid Uterus, and on the Arrange- ment of the Fœtal Membranes in the Cetacea, . . . . .		467
	XIX. ) XX. { XXI. { XXII. }	Illustrating Professor Alexander Dickson's Paper on Some Abnormal Cones of <i>Pinus Pinaster</i> , . . . . .		505
	XXIII. ) XXIV. { XXV. }	Illustrating Dr Thomas R. Fraser's Paper on an Experimental Research on the Antagonism between the Actions of Physostigma and Atropia, . . . . .		529
	XXVI. ) XXVII. { XXVIII. }	Illustrating Mr J. A. Broun's Paper on the Lunar Diurnal Variation of Magnetic Declination at Trevandrum, near the Magnetic Equator, deduced from Observations made in the Observatory of His Highness the Maharajah of Travancore, G.C.S.I., . . . . .		735
	XXIX. ) XXX. }	Illustrating Professor Turner's Paper on the Occurrence of <i>Ziphius cavirostris</i> in the Shetland Seas, and a Comparison of its Skull with that of Sowerby's Whale ( <i>Mesoplodon Sowerbyi</i> ), . . . . .		759
	XXXI. } XXXII. }	Illustrating Professor Balfour's Paper, Remarks on the Ipecacuan Plant ( <i>Cephaelis</i> <i>Ipecacuanha</i> , Rich ), as cultivated in the Royal Botanic Garden, Edinburgh,		779

# CONTENTS.

## PART I. (1869–70.)

	PAGE
I.— <i>On Reciprocal Figures, Frames, and Diagrams of Forces.</i> By J. CLERK MAXWELL, F.R.SS. L. & E. (Plates I, II., and III.), . . . . .	1
II.— <i>On Scientific Method in the Interpretation of Popular Myths, with special reference to Greek Mythology.</i> By Professor BLACKIE, . . . . .	41
III. <i>On the Extension of Brouncker's Method to the Comparison of Several Magnitudes.</i> By EDWARD SANG, Esq., . . . . .	59
IV.— <i>On Green's and other Allied Theorems.</i> By Professor TAIT, . . . . .	69
V.— <i>On the Heat Developed in the Combination of Acids and Bases.</i> Second Memoir. By THOMAS ANDREWS, M.D., F.R.S., Hon. F.R.S.E., Vice-President of Queen's College, Belfast, . . . . .	85
VI.— <i>The Genetic Succession of Zooids in the Hydroida.</i> By Professor ALLMAN, . . . . .	97
VII.— <i>Influence of the Vagus upon the Vascular System.</i> By WILLIAM RUTHERFORD, M.D., F.R.S.E., Professor of Physiology, King's College, London, . . . . .	107
VIII.— <i>On the Old River Terraces of the Earn and Teith, viewed in connection with certain Proofs of the Antiquity of Man.</i> By the Rev. THOMAS BROWN, F.R.S.E. (Plate IV.), . . . . .	149

VOL. XXVI. PART IV. f

	PAGE
IX.— <i>On Spectra formed by the Passage of Polarized Light through Refracting Crystals.</i> By FRANCIS DEAS, M.A., LL.B., F.R.S.E., . . . . .	177
<i>Addition to the above Paper.</i> By J. CLERK MAXWELL, LL.D., F.R.SS., L. & E., . . . . .	185
X. <i>On the Oxidation of Products of Picoline.</i> By JAMES DEWAR, F.R.S.E., Chemical Demonstrator in the University of Edinburgh, and Lecturer on Chemistry at the Edinburgh Veterinary College, . . . . .	189
XI. <i>An Account of the Great Finner Whale (Balænoptera Sibaldii) stranded at Longniddry.</i> Part I.—The Soft Parts. By WILLIAM TURNER, M.B., (Lond.), Professor of Anatomy in the University of Edinburgh. (Plates V.–VIII.),	197

---

## PART II. (1870–71.)

XII. <i>On Some Points in the Structure of Tubifex.</i> By W. C. M'INTOSH, M.D., F.R.S.F. (Plates IX. and X.), . . . . .	253
XIII.— <i>On the Place and Power of Accent in Language.</i> By Professor BLACKIE, . . . . .	269
XIV.— <i>On the Average Quantity of Rain in Carlisle and the Neighbourhood.</i> By THOMAS BARNES, M.D., F.R.S.E., . . . . .	313
XV.— <i>On the Physiology of Wings, being an Analysis of the Movements by which Flight is produced in the Insect, Bat, and Bird.</i> By JAMES BELL PETTIGREW, M.D., F.R.S., Pathologist to the Royal Infirmary of Edinburgh, and Curator of the Museum of the Royal College of Surgeons of Edinburgh. Communicated by Professor TURNER. (Plates XI. to XVI.), . . . . .	321

	PAGE
XVI.— <i>Additional Note on the Motion of a Heavy Body along the Circumference of a Circle.</i> By EDWARD SANG, Esq., F.R.S.E., . . . . .	449
XVII.— <i>On the Homological Relations of the Cœlenterata.</i> By Professor ALLMAN, . . . . .	459
XVIII. <i>On the Gravid Uterus and on the Arrangement of the Foetal Membranes in the Cetacea.</i> By Professor TURNER. (Plates XVII. and XVIII.), . . . . .	467
XIX.— <i>On some Abnormal Cones of Pinus Pinaster.</i> By ALEXANDER DICKSON, M.D., Regius Professor of Botany in the University of Glasgow. (Plates XIX. to XXII.), . . . . .	505

---

PART III. (1870–71.)

XX.— <i>Account of the New Table of Logarithms to 200000.</i> By EDWARD SANG, Esq., F.R.S.E., . . . . .	521
XXI.— <i>An Experimental Research on the Antagonism between the Actions of Physostigma and Atropia.</i> By THOMAS R. FRASER, M.D., Lecturer on Materia Medica and Therapeutics at Surgeon's Hall, Edinburgh. (Plates XXIII.–XXV.), . . . . .	592

---

PART IV. (1871– 2)

XXII.— <i>On the Decomposition of Forces externally applied to an Elastic Solid.</i> By W. J. MACQUORN RANKINE, C.E., LL.D., F.R.SS. L. & E., . . . . .	715
XXIII.— <i>On the Geometrical Mean Distance of Two Figures on a Plane.</i> By Professor J. CLERK MAXWELL, F.R.S., . . . . .	729

	PAGE
XXIV.— <i>On the Lunar Diurnal Variation of Magnetic Declination at Trevandrum, near the Magnetic Equator, deduced from Observations made in the Observatory of His Highness the Maharajah of Travancore, G.C.S.I.</i> By J. A. BROUN, F.R.S. (Plates XXVI.–XXVIII.), . . . . .	735
XXV.— <i>On the Occurrence of Ziphius cavirostris in the Shetland Seas, and a Comparison of its Skull with that of Sowerby's Whale (Mesoploden Sowerbyi).</i> By Professor TURNER, (Plates XXIX., XXX.), . . . . .	759
XXVI.— <i>Remarks on the Ipecacuan Plant (Cephaëlis Ipecacuanha, Rich.), as cultivated in the Royal Botanic Garden, Edinburgh.</i> By JOHN HUTTON BALFOUR, M.D., F.R.S., Sec. R.S.E., F.L.S., Hon. Mem. Pharm. Soc., and Professor of Medicine and Botany in the University of Edinburgh. (Plates XXXI. and XXXII.), . . . . .	781
