

PROCEEDINGS  
THE ROYAL SOCIETY  
OF  
EDINBURGH.

VOL. XVI.

NOVEMBER 1888 TO JULY 1889.

EDINBURGH:  
PRINTED BY NEILL AND COMPANY.

MDCCCXC.

## CONTENTS.

	PAGE
Election of Office-Bearers at the General Statutory Meeting, Monday, Nov. 26, 1888, . . . . .	1
Chairman's Opening Address, . . . . .	2
On <i>Pseudalius alatus</i> , Leuckart, collected by Mr Robert Gray in the Arctic Seas, and other species of the Genus. By Dr O. v. Linstow. Communicated by Dr John Murray. (With a Plate), . . . . .	15
Abstract of the Results of an Inquiry into the Causation of Asiatic Cholera. By Neil Macleod, M.D. Edin., and Walter J. Milles, F.R.C.S. Eng. Communicated by Dr Woodhead, . . . . .	18
Preliminary Remarks on the Homologies of the Mesenteries in Anti- patharia and other Anthoza. By George Brook, Esq., Lecturer on Comparative Embryology in the University of Edinburgh, . . . . .	35
On Certain Bodies, apparently of Organic Origin, from a Quartzite Bed near Inveraray. By his Grace the Duke of Argyll, K.G., K.T., . . . . .	39
On the Virial Equation for Molecular Forces, being Part IV. of a Paper on the Foundations of the Kinetic Theory of Gases. By Professor Tait, . . . . .	65
<i>Strophanthus hispidus</i> : its Natural History, Chemistry, and Phar- macology. By Professor Thomas R. Fraser, M.D., . . . . .	73
A New Type of Dimorphism found in certain Antipatharia. By George Brook, Esq., Lecturer on Comparative Embryology in the University of Edinburgh, . . . . .	78
The Change in the Thermoelectric Properties of Wood's Fusible Metal at its Melting Point. By Albert Campbell, Esq., B.A., . . . . .	83
Note on the Relation between the Mutual Distances of Five Points in Space. By Thomas Muir, LL.D., . . . . .	86
The Relation among Four Vectors. Note on Dr Muir's Paper. By Professor Tait, . . . . .	88

	PAGE
The History and Theory of Heredity. By J. Arthur Thomson, Esq., M.A., . . . . .	91
On the Anatomy and Histology of Phreoryctes. By Frank E. Beddard, Esq., M.A., Prosector to the Zoological Society of London, Lecturer on Biology at the Medical School of Guy's Hospital, . . . . .	117
Note on the Transformation of Ciliated and Stratified Squamous Epithelium as a result of the Application of Friction. By Dr John Berry Haycraft and E. W. Carlier, Esq., M.B., B.Sc., . . . . .	119
Observations on the Metabolism of Man during Starvation. By Noël Paton, M.D., and Ralph Stockman, M.D., . . . . .	121
A Method of Demonstrating the Presence of Uric Acid in the Contractile Vacuoles of some Lower Organisms. By Dr A. B. Griffiths, F.R.S. (Edin.), F.C.S. (Lond. and Paris), Member of the Physico-Chemical Society of St Petersburg, &c., . . . . .	131
On Improvements in the Apparatus for Counting the Dust Particles in the Atmosphere. By John Aitken, Esq., Darroch. (With Four Plates), . . . . .	135
The Prolonged Action of Sea-Water on Pure Natural Magnesium Silicates. By Alexander Johnstone, Esq., F.G.S., . . . . .	172
Deductive Evidence of a Uterine Nerve Centre, and of the Location of such in the Medulla Oblongata. By James Oliver, M.D., F.R.S.E., . . . . .	175
On the so-called "Liver" of <i>Carcinus mœnas</i> . By Dr A. B. Griffiths, F.R.S. (Edin.), F.C.S. (Lond. and Paris), Member of the Physico-Chemical Society of St Petersburg, &c., . . . . .	178
On the Air's Resistance to an Oscillating Body (its Influence on Time-Keepers). By Edward Sang, LL.D., . . . . .	181
A Contribution to the Chromatology of the Bile. By John Berry Haycraft, M.D., D.Sc., and Harold Scofield, Esq., M.B., . . . . .	188
On the Identity of Hofmann's "Dibenzyl-Phosphine" with Oxide of Tribenzyl-Phosphine, and on some other Points connected with the Phosphorised Derivations of Benzyl. By Professor Letts and R. F. Blake, Esq., Queen's College, Belfast, . . . . .	193
Differentiation of any (Scalar) Power of a Quaternion. By Alexander M'Aulay, Esq., Ormond College, Melbourne. Communicated by Professor Tait, . . . . .	201
Note on Mr M'Aulay's Paper. By Professor Tait, . . . . .	205
Additional Remarks on the Virial of Molecular Force. By Professor Tait, . . . . .	206
The Theory of Determinants in the Historical Order of its Development. By Thomas Muir, M.A., LL.D., . . . . .	207

	PAGE
The Electrotonic Variation with Strong Polarising Currents. By George N. Stewart, D.Sc., Owens College, Manchester, . . . . .	234
Notice of Fundamental Tables in Trigonometry and Astronomy, arranged according to the Decimal Division of the Quadrant. By Edward Sang, LL.D., . . . . .	249
On the Relation among the Line, Surface, and Volume Integrals. By Professor Tait, . . . . .	257
The Development of Diarthrodial Joints in Birds and Mammals. By David Hepburn, M.B., M.R.C.S. (Eng.), Senior Demonstrator of Anatomy, University of Edinburgh. Communicated by Pro- fessor Sir W. Turner, . . . . .	258
Electrification of Air by Flame. By Sir William Thomson, . . . . .	262
On the Placentation of the Halicore Dugong. By Professor Sir William Turner, . . . . .	264
On the Geographical Distribution of some Tropical Diseases, and their Relation to Physical Phenomena. By R. W. Felkin, M.D., F.R.G.S., Lecturer on Diseases of the Tropics and Climatology, Edinburgh Medical School. (With 16 Plates), . . . . .	266
Quaternion Note on a Geometrical Problem. By Professor Tait, . . . . .	315
The Solubility of Carbonate of Lime in Fresh and Sea Water. By W. S. Anderson, Esq., Chemist at Marine Station, Granton, . . . . .	319
Secretion of Carbonate of Lime by Animals. Part II. By Robert Irvine, F.C.S., and G. Sims Woodhead, M.D., . . . . .	324
Theoretical Description of a New "Azimuth Diagram." By Captain Patrick Weir. Communicated by Sir William Thomson, . . . . .	354
Note on Captain Weir's Paper. By Professor Tait, . . . . .	359
On the Coagulation of Egg and Serum Albumen, Vitellin, and Serum Globulin, by Heat. By John Berry Haycraft, M.D., D.Sc., and C. W. Duggan, M.B., . . . . .	361
Some New Points in Connection with Muscle Contraction. By Alexander James, M.D., . . . . .	385
The Theory of Determinants in the Historical Order of its Develop- ment. By Thomas Muir, M.A., LL.D., . . . . .	389
A Revision of the Genus <i>Coccinodiscus</i> and some Allied Genera. By John Rattray, M.A., B.Sc., F.R.S.E. (With Three Plates), . . . . .	449
Molecular Constitution of Matter. By Sir William Thomson, . . . . .	693
Continued Observations on the Progression and Rotation of Bivalve Molluscs, and of detached Ciliated Portions of them. By D. M'Alpine, Esq. Communicated by Dr Sims Woodhead. (With Two Plates), . . . . .	725

	PAGE
<i>Strophanthus hispidus</i> —continued :—Pharmacological Action. By Dr Thomas R. Fraser, . . . . .	743
The Theory of Determinants in the Historical Order of its Develop- ment. By Thomas Muir, M.A., LL.D., . . . . .	748
On the Scalar Relations connecting Six Vectors . By the Rev. M. M. U. Wilkinson. Communicated by Professor Tait, . . . . .	773
Report on Atmospheric Circulation, based on the Observations made on Board H.M.S. "Challenger," 1873-76. By Alexander Buchan, LL.D., . . . . .	786
On the Stomach of the Narwhal ( <i>Monodon monoceros</i> ). By G. Sims Woodhead, M.D.; and Robert W. Gray, Esq. (With Four Plates), . . . . .	792
Meetings of the Royal Society—Session 1888-89, . . . . .	807
Donations to the Library, . . . . .	823
Index, . . . . .	841
