

NOTES FOR CONTRIBUTORS

1. The original and two copies of a manuscript submitted for publication should be sent to the Editor, Sir Arnold Burgen, Department of Pharmacology, Tennis Court Road, Cambridge, CB2 1QJ, UK. The Author's full postal address, as well as telephone, telex and fax numbers where available, should appear on the manuscript.
2. The language of the Review is English and only original papers, not published elsewhere, will be accepted. The copyright must be assigned to the Publisher by filling in the Publishing Agreement form which will be sent to the prospective author.
3. Manuscripts are to be typed double-spaced, with wide top and side margins, on one side of the paper only. Authors are advised to keep one copy of their manuscript for reference. A summary of 100–150 words should be provided.
4. Accepted papers should be provided on disk if possible. Two identical disk copies of the final version of the paper should be accompanied by a hard copy. If the disk and the hard copy differ, the hard copy will be used as the definitive version. The disks must be labelled with a six letter acronym representing the journal title (3) and the author's name (3), for example, EURWAC. The label should also include the date, author's name, hardware and software used. Most software is acceptable but WordPerfect, Word or Tex are best.
If there is artwork provided on the disk, please include the source file as well as the encapsulated PostScript file. Name each file carefully using the same code as for the text, for example, EURWACF01. If you have any questions, please ring the Journal Production department of John Wiley & Sons, Ltd.
5. The title should be brief. It should appear on a separate sheet, with the Author's name typed on the line below the title.
6. The papers should be subdivided into sections and, if necessary, subsections. Authors should submit a brief autobiography of 75–100 words along with the paper.
7. Mathematical symbols may be hand-written or typed: Greek letters and unusual signs should be identified separately in the margin. Distinction should be made between letter O and zero; between letter I and number 1 and prime. All abbreviations should be preceded the first time they appear by the full name. Boldface, spacing, and italics for emphasis are to be avoided; the latter are to be used, though, for words taken over from other languages and not integrated in the language of the text.
8. Half-tone illustrations are to be restricted in number to the minimum necessary. Good glossy bromide prints should accompany the manuscript and should not be attached to manuscript pages.
9. Figures and tables are to be numbered consecutively and placed on separate sheets, with their place in the running text indicated therein. Original outline drawings (not photocopies) should be provided. Drawings should be of about twice the final size; the lettering must be clear and large enough for proportionate reduction. Figure legends should be typed on a separate sheet and placed at the end of the manuscript.
10. Footnotes are to be held to a minimum; parentheses in the text are to be preferred. Footnotes are not to be used for bibliographical references.
11. References to published literature should be quoted in the text by superior numbers and grouped together at the end of the paper in numerical order. Journal references should be arranged thus:
 1. F. Fukuyama, 'The End of History', *The National Interest*, **16**, 3–19 (1989).Book references should be as follows:
 2. J. Cadwell, *Theory of Fertility Decline*, Academic Press, London, 1982.For many articles submitted to the publication, it may be more useful to provide a short bibliography under the heading 'Further Reading'.
12. No manuscript or illustration will be returned following publication unless a request for return is made at the time when the manuscript is submitted.
13. Page proofs are sent to authors for the correction of printers' errors; alterations of the text will not be accepted. Corrected proofs should be returned to the *Publisher* within 48 hours of receipt.
14. Twenty-five offprints of the paper and one copy of the Journal issue in which it appears will be provided to the Author free of charge. Additional copies of the article and the Journal may be purchased from the Publisher on an offprint order form supplied with the proofs.
15. It is the Author's responsibility to obtain written permission to quote material which has appeared in another publication.

COPYING OF ARTICLES

The code and the copyright notice appearing at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients, on the condition that the copier pay for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The per-copy fee is to be paid through the Copyright Clearance Center Inc. and details of their authorization schemes can be obtained from them at 27 Congress Street, Salem, MA 01970, U.S.A. Tel: (508) 744-3350, Fax: (508) 745-9379. The consent does not extend to other kinds of copying such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Such permission requests, or other inquiries should be addressed to the publisher.
