"They render fluids like smoke"

is the description applied by the *LANCET* to the

Universal Vaporiser

And the "AERISER" (a smaller model)

THESE remarkable instruments have the power to subdivide solutions (whether volatile or non-volatile) so finely that the vapour can be forced even into the most remote positions of the respiratory tract and middle ear, not excepting the air cells and nasal sinuses. *And this is accomplished successfully without the use of steam or heat.*

These instruments are largely used in the exhibition of "Neboline" Compounds, of which the formulæ are included in the Brochure entitled "The Treatment of Pulmonary and Bronchial Affections," which will be posted to any member of the Profession on request.

VAPORISER

AERISER

OPPENHEIMER SON & CO. LTD.

Manufacturers of "Roboleine," the Reconstructive Food which has been consistently prescribed for 20 years and used with the happiest results by Hospitals, Sanatoria, and Welfare Centres.

***A Memorandum
to the Medical Profession
Upon the Sale of
Electrical Hearing Aids for the Deaf***

*An Explanation of a method of sale which protects the Deaf
against the loss and disappointment entailed by the
purchase of unsuitable Hearing Aids. This
method of sale is popularly described as*

**The FORTIPHONE
30-days Home Trial Plan**

The FORTIPHONE Home Trial Plan enables the deaf person, on payment of a small rental fee, to take the selected FORTIPHONE home for 30-days trial. Thus the deaf person is enabled to test the FORTIPHONE thoroughly, under every-day conditions in the home, in the street, in Church, theatre, and concert hall, before deciding to purchase. If the FORTIPHONE should fail to give the help anticipated, we exchange it or take it back at the customer's discretion. The payment of the rental fee

frees the customer, in the event of dissatisfaction, from any uncomfortable sense of obligation; and he is, at the same time, safeguarded against the disbursement of the full purchase price until he has satisfied himself (uninfluenced by a professional "demonstrator") that the FORTIPHONE will be of real benefit to him. After the purchase has been completed, care is taken to ascertain, from time to time, that the FORTIPHONE is being properly used and is giving satisfactory service.

Approved and recommended by leading Aurists

Full particulars will gladly be sent and arrangements made for a trial of the Fortiphone, upon request.

Please write to

FORTIPHONE LIMITED

*Sole Distributors of the FORTIPHONE for the Deaf and
the SONOMAX Sound Amplifier*

LANGHAM HOUSE (Dept. 91)

308 REGENT STREET, LONDON, W. 1

The Journal of Laryngology and Otology

(Founded in 1887 by MORRELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

A. LOGAN TURNER AND J. S. FRASER

ASSISTED BY

DOUGLAS GUTHRIE AND WALTER HOWARTH

1. Original Articles are accepted on the condition that they have not been published elsewhere.
2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.
3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.
4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.
5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.
6. Editorial Communications should be addressed to "EDITORS, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."
7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.
8. Single Copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.
9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STRECHERT & Co., 31-33 East 10th Street, New York.

 GUARANTEED

FOR ALL
 PURPOSES

For Spraying the Nose and Throat with Oils and Aqueous Solutions

Important

The adjustable tip permits spraying in any direction, and is especially important when the bronchial tubes or the post-nasal cavities are to be treated.

When prescribing, please specify

"DeVilbiss Spray No. 15"

(of all Chemists and Surgical Instrument makers)

Complete illustrated Catalogue from

DeVILBISS, CO., LTD., WEST DRAYTON, MIDDLESEX

CHEVALIER JACKSON'S INSTRUMENTS FOR ŒSOPHAGOSCOPY, LARYNGOSCOPY, AND BRONCHOSCOPY

New Models as made for Walter G. Howarth, F.R.C.S.

Each Instrument is made in accordance with the details of Chevalier Jackson's most recent models, and each is supplied with a *spare light carrier*, i.e., 2 light carriers and 2 lamps. All the models have been redesigned with a view to rendering them more easily cleansed; all the crevices and corners for the dirt have been taken away.

To ensure better visibility the tips of the forceps are *black*.

The Howarth-Jackson's Instruments are **less expensive** than other American or English models, and a further economy has been effected by rendering the instrument tips interchangeable, thus reducing the number of forceps handles and tips required.

The lamps are 2.5 volt and more durable than the usual models.

Manufactured only by

The Hospital has recently undergone very extensive reconstruction and extension, and now has 73 beds for In-patients and an annual Out-patient attendance of about 40,000.

CLINICAL INSTRUCTION

Clinical Instruction in the Diagnosis and Treatment of Diseases of the Ear, Nose and Throat is daily given in the Out-patient Department from 2 to 5 p.m. On Tuesdays and Fridays from 6.30 to 8 p.m. also. Major operations are performed daily, except Mondays, in the In-patient Operating Theatres. Minor operations are performed in the Out-patient Department by the Assistant Surgeons on four mornings a week.

Practitioners and Medical Students are admitted to the practice of the Hospital, and Clinical Assistants, whose duty it is to assist the staff, are appointed from time to time among them. For further information apply to the Dean, THEODORE JUST.

THE TONSILS AND ADENOIDS AND THEIR DISEASES

Including the Part they Play in Systemic Diseases

By **IRWIN MOORE, M.B. C.M.**

Late Honorary Surgeon to the London Throat Hospital for Diseases of the Throat, Nose and Ear, Great Portland Street; and also to the Hospital for Diseases of the Throat, Golden Square, London, W.

Demy 8vo.

Fully Illustrated.

Price 21s. net

This book is the outcome of much practical private and hospital experience, and embodies a number of papers which the author has contributed to various medical journals during recent years, dealing with the important subject of enlarged or diseased tonsils and adenoids—their menace to health, the operative technique for their removal, and the control of hæmorrhage, during and after removal.
