Baker, (2008). Mendelian inheritance of *t* haplotypes in house mouse (*Mus musculus domesticus*) field populations. *Genetics Research* 90, 331–339.

The published version of Figure 1 on p. 334 was incorrect, the correct version is given below. The caption as originally printed was correct.

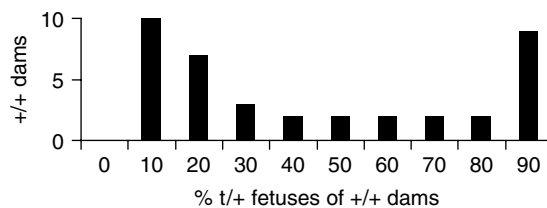

Fig. 1. A total of 39 trapped +/+ pregnant dams were sacrificed to obtain their fetuses. The mean *t* haplotype transmission ration was 49.9% with a standard error of 5.5%. 30 of these 39 +/+ dams had fetuses with mosaic *t* complex genotypes. Following Ben-Shlomo *et al.* (2007), a mosaic *t* mouse was classified as *t*/+.
