

# CLAY MINERALS

VOLUME 20, NUMBER 2, JUNE 1985

## CONTENTS

D. PROUST. Amphibole weathering in a glaucophane-schist (Ile de Groix, Morbihan, France)	161
E. DE GRAVE, J. VANDENBRUWAENE and E. ELEWAUT. An $^{57}\text{Fe}$ Mössbauer study on glauconites from different locations in Belgium and Northern France	171
S. KOMARNENI and E. BREVAL. Characterization of smectites synthesised from zeolites and mechanism of smectite synthesis	181
B. SIFFERT and J.-P. ZUNDEL. Retention du <i>N</i> -paraocetylbenzenesulfonate de sodium par les argiles en presence d'électrolyte (KCl)	189
R. D. WILMOT. Mineralogical evidence for sediment derivation and ice movement within the Wash drainage basin, eastern England	209
C. DE LE CALLE, H. SUQUET et H. PEZERAT. Vermiculites hydratées à une couche	221
A. WIEWIORA and Z. WEISS. X-ray powder transmission diffractometry determination of mica polytypes: method and application to natural samples	231
Notes	
A. K. DE and S. BHATTACHERJEE. An X-ray analysis of stacking disorder in kaolinite by fourth moment	249
S. MANN, R. M. CORNELL and U. SCHWERTMANN. The influence of aluminium on iron oxides: XII. High-resolution transmission electron microscopic (HRTEM) study of aluminous goethites	255
J. A. MEDINA, M. MORANTE, S. LEGUEY and J. TORNERO. Some observations on the relationship between etch-pit form and structure in biotite	263
Book Reviews	273
Announcements	278
