The Wheel of Law

India's Secularism in Comparative Constitutional Context

Gary Jeffrey Jacobsohn

How can religious liberty be guaranteed in societies where religion pervades everyday life? In *The Wheel of Law*, Gary Jacobsohn addresses this dilemma by examining the constitutional development of secularism in India within an unprecedented cross-national framework that includes Israel and the United States.

"Careful, meticulous, admirably unbullying, and impressive in its range of reference, it is also the only comparative study of constitutionalism in India, the United States, and Israel."—Pratap Bhanu Mehta, Jawaharlal Nehru University

Cloth \$39.50 ISBN 0-691-09245-1

A Century of Genocide

Utopias of Race and Nation

Eric D. Weitz

Blending gripping narrative with trenchant analysis, Eric Weitz investigates four of the twentieth century's major eruptions of genocide: the Soviet Union under Stalin, Nazi Germany, Cambodia under the Khmer Rouge, and the former Yugoslavia. He explains the prevalence of genocide in the twentieth century—and shows how and why it became so systematic and deadly.

"One of the most illuminating works of comparative history to appear in recent years."—George M. Fredrickson, Stanford University

Cloth \$29.95 ISBN 0-691-00913-9

Rethinking the Korean War

A New Diplomatic and Strategic History

William Stueck

William Stueck presents a fresh analysis of the Korean War's major diplomatic and strategic issues. Drawing on a cache of newly available information from archives in the United States, China, and the former Soviet Union, he provides an interpretive synthesis for scholars and general readers alike.

"Supported by insights gained from new sources and demonstrating a high sensitivity toward the international nature of the conflict in Korea, [this book] is of great scholarly significance."—Chen Jian, University of Virginia
