Yearbook of International Disaster Law

Editors: **Giulio Bartolini, Dug Cubie, Marlies Hesselman and Jacqueline Peel**

Available in print and online, the aim of the *Yearbook of International Disaster Law* is to foster the interest of academics and practitioners on legal and institutional issues relevant to all forms of natural, technological/human-made disasters, including rapid and slow onset events, but excluding armed conflicts or political/financial crises per se. The *Yearbook* primarily addresses the international law dimension of relevant topics, alongside important regional and national dimensions relevant for the further development of legal and policy initiatives. The *Yearbook* fills a current gap in international journals as there is no a specific hub devoted to this area of law notwithstanding the increasing academic interest towards such issues.

Volume One features a thematic section on the Draft Articles of the ILC on the "Protection of Persons in the Event of Disasters" as well as a general selection of articles, and an international and regional review of International Disaster Law in Practice, plus book reviews and bibliography.

The *Yearbook* will be of interest to academics, practitioners, stakeholders and policy-makers on legal and institutional issues relevant to all forms of natural, technological and human-made hazards.

GENERAL EDITOR

Professor H el ene Ruiz Fabri, Director of the Max Planck Institute Luxembourg for Procedural Law

The *Max Planck Encyclopedia of International Procedural Law* (MPEiPro) maps and analyzes the systems and processes through which international law is made, interpreted, and adjudicated in practice. It takes a broad view of international procedure, examining it from three different angles: technical points of procedure within specific institutions or across similar organizations; comparative accounts of families of institutions within specific subject areas or with similar functions; and theoretical, interdisciplinary entries.
