

## INDEX

AL-AMIRI, H. S.: Certain generalizations of prestarlike functions	325
ALSPACH, BRIAN, HEINRICH, KATHERINE and VARMA, BADRI N.: Decompositions of complete symmetric digraphs into the oriented pentagons	353
ASH, C. J.: Uniform labelled semilattices	385
ASH, C. J.: The $\mathcal{S}$ -classes of an inverse semigroup	427
BAKER, M. J. C.: Covering a polygon with triangles: a Carathéodory-type theorem	229
BALES, J. L.: On product varieties of inverse semigroups	107
BALOGUN, BOLA O.: Conjugate purity and infinite groups	9
BORGES, CARLOS R.: Free groups, symmetric and reduced products	174
BYRD, R. D., LLOYD, J. T. and STEPP, J. W.: The automorphism group of the semi-group of finite complexes of a periodic abelian group	15
CACCETTA, L.: Extremal graphs of diameter 3	67
CAMPBELL, COLIN M. and ROBERTSON, EDMUND F.: Finitely presented groups of Fibonacci type. Part II	250
CHEE, P. S.: Universal functions in several complex variables	189
CLIFF, GERALD H.: On the degree of an indecomposable representation of a finite group	321
COHN, H.: Harmonic functions for a class of Markov chains	413
CURZER, HOWARD and HAGER, ANTHONY W.: Zero-set ultrafilters and $G_\delta$ -closures in uniform spaces	219
DESHPANDE, M. V. and PADHYE, S. M.: Characterizations of collectively precompact and semi-precompact operators on topological vector spaces	179
EVANS, RONALD J.: Unambiguous evaluations of bidecic Jacobi and Jacobsthal sums	235
FELDMAN, N. I.: Effective bounds of the solutions of certain diophantine equations	129
FORD, NICHOLAS S.: Inertial subalgebras of algebras possessing finite automorphism groups	335
GARDNER, B. J.: Radicals related to the Brown-McCoy radical in some varieties of algebras	283
HAGER, ANTHONY W.: see CURZER, HOWARD	219
HARTLEY, R. I.: On two-bridged knot polynomials	241
HEINRICH, KATHERINE: see ALSPACH, BRIAN	353
HERZOG, MARCEL and PRAEGER, CHERYL E.: On characters in the principal 2-block, II	100
HIRSHON, RONALD: Direct decompositions of groups with finitely generated commutator quotient group	315
HOFER, ROBERT D.: Near-rings of continuous functions on disconnected groups	433
HOLTON, D. A. and SHEEHAN, J.: On Sylow graphs	27
HULE, HARALD: Solutionally complete varieties	82
JOHN, DAVID J.: Residual finiteness and 'free' distributively generated near-rings	398
JOHNSON, ROY A.: Measurability of cross section measure of a product Borel set	346
KARPILOVSKY, G.: On group rings of finite metabelian groups	378
KUMAR, ASHOK: see SINGH, R. K.	309
LLOYD, J. T.: see BYRD, R. D.	15
MAINWARING, DIANE and PEARSON, K. R.: Decomposability of finite rings	136
MALLER, R. A.: Relative stability, characteristic functions and stochastic compactness	499
MANDAN, SAHIB RAM: Orthologic Desargues' figure	295
MANDAN, SAHIB RAM: Special pairs of semi-bilogic and bilogic tetrahedra	303
MORAN, SIEGFRIED and WILLIAMS, JANET: Completions of certain nilpotent groups	461
NEUMANN, WALTER D.: Errata: Mal'cev conditions, spectra and Kronecker product	510
NG, KUNG-FU: A maximum principle	23
NÖBAUER, WILFRIED: On semigroups and groups of local polynomial functions	214
OATES-WILLIAMS, SHEILA and STREET, ANNE PENFOLD: Balanced binary arrays III: the hexagonal grid	479
PADHYE, S. M.: see DESHPANDE, M. V.	179
PEARSON, K. R.: see MAINWARING, DIANE	136
PEARSON, K. R.: see RIMMER, M.	423
PLOTKIN, J. M. and ROSENTHAL, JOHN: Some asymptotic methods in combinatorics	452
POLLARD, DAVID: Weak convergence on non-separable metric spaces	197

PRAEGER, CHERYL E.: see HERZOG, MARCEL	100
PRIDE, STEPHEN J.: On groups of finite height	87
REZNICK, BRUCE: When is the iterate of a formal power series odd?	62
RIMMER, M. and PEARSON, K. R.: Nilpotents and units in skew polynomial rings over commutative rings	423
ROBERTSON, EDMUND F.: see CAMPBELL, COLIN M.	250
ROSENTHAL, JOHN: see PLOTKIN, J. M.	452
SCHRODER, M.: Order-bounded convergence structures on spaces of continuous functions	39
SCHWENK, ALLEN J.: see WATANABE, MAMORU	120
SHEEHAN, J.: see HOLTON, D. A.	27
SINGH, R. K. and KUMAR, ASHOK: Compact composition operators	309
SOUTHCOTT, J. B.: Trace polynomials of words in special linear groups	401
STAPLES, JOHN: A lambda calculus with naive substitution	269
STEPP, J. W.: see BYRD, R. D.	15
STREET, ANNE PENFOLD: see OATES-WILLIAMS, SHEILA	479
SWETTIS, J.: On the relationship between a summability matrix and its transpose	362
TARAFDAR, E. and TEO, SUAT KHUOH: On the existence of solutions of the equation $Lx \in Nx$ and a coincidence degree theory	139
TEO, SUAT KHUOH: see TARAFDAR, E.	139
VANSTONE, S. A.: Resolvable $(r, \lambda)$ -designs and the Fisher inequality	471
VARMA, BADRI N.: see ALSPACH, BRIAN	353
WATANABE, MAMORU and SCHWENK, ALLEN J.: Integral starlike trees	120
WHITEHEAD, EARL GLEN, JR.: Four-discordant permutations	369
WIGNER, D.: Two notes on frames	257
WILLIAMS, JANET: see MORAN, SIEGFRIED	461
WORMALD, NICHOLAS: A 4-chromatic graph with a special plane drawing	1
YORKE, A. C.: Differentiability and local rotundity	205
