

## Instructions for Contributors

*Bird Conservation International* publishes papers and communications on subjects relevant to the conservation of birds, with a general preference for those addressing international or high national priorities.

**Submission of manuscripts.** Electronic versions of papers should be submitted online at <https://www.cambridge.org/bci> or, in exceptional circumstances, via email to [bcieditor@bto.org](mailto:bcieditor@bto.org). Please follow the guidelines in the Instructions for Authors.

**Proofs.** The corresponding author will receive, by email, page proofs for checking which they are required to return within three days of receipt. Textual changes in proof cannot normally be countenanced and the publisher reserves the right to charge authors for excessive correction of non-typographical errors.

**Copyright.** Authors of articles published in the journal assign copyright to BirdLife International (with certain rights reserved) and a copyright assignment form will be sent to the author for signature on acceptance of a paper.

*Printed in the UK by Bell & Bain*

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

## Contents

### Impacts of anthropogenic disturbance

- Evaluation of disturbance effect on geese caused by an approaching unmanned aerial vehicle  
Mads Bech-Hansen, Rune M. Kallehauge, Jannik M. S. Lauritzen, Mathias H. Sørensen, Bjarke Laubek, Lasse F. Jensen, Cino Pertoldi and Dan Bruhn 169
- Fishery bycatch is among the most important threats to the European population of Greater Scaup *Aythya marila*  
Dominik Marchowski, Łukasz Jankowiak, Łukasz Ławicki, Dariusz Wysocki and Przemysław Chylarecki 176
- Effects of wind energy production on a threatened species, the Bicknell's Thrush *Catharus bicknelli*, with and without mitigation  
Jérôme Lemaître and Vincent Lamarre 194
- Lower levels of human disturbance correspond with longer-term persistence of Endangered Green Peafowl *Pavo muticus* populations  
Niti Sukumal, Matthew J. Grainger and Tommaso Savini 210
- Physiological stress and behavioural responses of European Rollers and Eurasian Scops Owls to human disturbance differ in farming habitats in the south of Spain  
Mónica Expósito-Granados, Deseada Parejo, Olivier Chastel and Jesús M. Avilés 220
- Conservation genetics**
- Influence of historical and contemporary habitat changes on the population genetics of the endemic South African parrot *Poicephalus robustus*  
Willem G. Coetzer, Colleen T. Downs, Mike R. Perrin and Sandi Willows-Munro 236
- No evidence for a loss of genetic diversity despite a strong decline in size of a European population of the Comcrake *Crex crex*  
Yoan Fourcade, David S Richardson and Jean Secondi 260
- Pilot biodiversity assessment of the Hkakabo Razi passerine avifauna in northern Myanmar – implications for conservation from molecular genetics  
Martin Päckert, Christopher M. Milensky, Jochen Martens, Myint Kyaw, Marcela Suarez-Rubio, Win Naing Thaw, Sai Sein Lin Oo, Hannes Wolfgramm and Swen C. Renner 267
- Research papers**
- Cabo Verde Egyptian Vulture *Neophron percnopterus* on the brink: community perceptions, inferences and facts of an extreme population crash  
Rui Freitas, Catelene Monteiro, Isabel Rodrigues, Alex Tavares, Gilda Monteiro, Pedro López, Samir Martins, João Ferreira, Liza Lima, José Pedro Tavares and Luís Palma 289
- Catastrophic ongoing decline in Cambodia's Bengal Florican *Houbaropsis bengalensis* population  
Simon P. Mahood, Hong Chamnan, Son Virak, Sum Phearun and Stephen T. Garnett 308
- Nest site selection and its implications for conservation of the endangered Oriental Stork *Ciconia boyciana* in Yellow River Delta, China  
Lei Cheng, Lizhi Zhou, Lixin Wu and Guanghai Feng 323
