The number of entries is limited in each course. A detailed syllabus of any of the above can be obtained on application from the Secretary.

A further list of dates covering the remainder of the year will be issued in due course.

General Notes

ROYAL SOCIETY OF MEDICINE SECTIONS OF LARYNGOLOGY AND OTOLOGY

SUMMER MEETING, 1959

The Summer Meeting of the combined sections of Otolaryngology and Laryngology will be held on Thursday, July 16th and Friday, July 17th, in Derby.

These dates have been arranged so as to coincide with the combined British Medical Association and Canadian Medical Association meeting from July 18th to July 24th, 1959. It is hoped that any Canadians who are in this country at the time will take this opportunity of attending the combined meeting of the Sections and their presence would be very much welcomed.

CLINIQUE OTO-RHINO-LARYNGOLOGIQUE DE LA FACULTÉ DE MÉDECINE DE BORDEAUX

Cours de Chirurgie fonctionnelle otologique du lundi 23 Février au Vendredi 6 Mars 1959.

Inscriptions: Docteur Michael Portmann, 45 Cours Marechal-Foch, Bordeaux.
Droits d'inscription 20,000 francs.

UNIVERSITY OF BORDEAUX, FRANCE

(EAR, NOSE, THROAT DEPARTMENT)

Director: Professor Georges Portmann

OTOLOGICAL FUNCTIONAL MICRO-SURGERY POST-GRADUATE COURSE

Conducted by Michel Portmann, M.D., Associated Professor

A PRACTICAL course of surgical technics will be given from July 1st to 10th 1959, in English.

During this period every assistant attending the course will be enabled to watch surgical interventions in the theatre, to follow theoretical courses illustrated with films regarding the major technics, and to work on his own daily anatomical specimen with all the requisite material, including the binocular microscope.

The number of assistants is limited to 10.

Fees: \$100 (to be paid at the Faculty of Medicine in Bordeaux at the beginning of the course).

Applications should be sent to: Dr. Michel Portmann, 45 Cours Foch, Bordeaux.

POST-TONSILLECTOMY COMFORT

Immediate pain relief—Speedier Convalescence

The pain of traumatized tissues following tonsillectomy, demands its own relief—and points the need for analgesia that quickly reaches the irritated area.

ASPERGUM provides 'salivary analgesia' through the simple act of chewing—it brings pain-relieving acetylsalicylic acid into *intimate* and *prolonged* contact with the tonsillar

region, seldom reached even intermittently by gargling. The rhythmic stimulation of muscular action also aids in relieving local spasticity & stiffness: more rapid tissue repair is promoted. Each pleasantly flavoured chewing gum tablet provides $3\frac{1}{2}$ grains acetylsalicylic acid, permitting frequent use. Particularly suitable for children.

Aspergum (Category 3)

for more than two decades a dependable
and welcome aid to patient-comfort

Ethically promoted in packages of 16 tablets and moisture proof bottles of 36 and 250
