International Psychogeriatric Association (IPA)

Representing more than 66 countries around the world, IPA is a unique and diverse professional healthcare community promoting better geriatric mental health — across disciplines, across borders, and across geriatric issues. Psychiatrists, Scientists, Neurologists, Geriatricians, Primary Care Physicians, Epidemiologists, Nurses, Psychologists, Occupational Therapists, Social Workers, and many other healthcare professionals come to the IPA community from all over the globe to discuss, learn, share, and research information about behavioral and biological aspects of geriatric mental health. IPA's leaders and members contribute their wealth of expertise and knowledge from the research, clinical, education, service and program development arenas.

There are many benefits to being a member of IPA, including a subscription to this peer-reviewed journal, *International Psychogeriatrics*. For more information please contact info@ipa-online.org.

IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)

The only resource you need for all members of your team!

An IPA Members Benefit*

***IPA members have access online at no additional charge!**

The *IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)* was revised in 2010, based on the BPSD Educational Pack. This comprehensive resource has modules that provide a useful overview of the presentation and causes of BPSD, offering constructive guidance on treatment interventions.

BPSD are recognizable, understandable and treatable. The recognition and appropriate management of BPSD are important factors in improving our care of dementia patients and their caregivers.

These modules will provide a useful overview of the presentation and causes of BPSD offering:

- Module 1 An introduction to BPSD
- Module 2 Clinical issues
- Module 3 Etiology
- Module 4 Role of family caregivers
- Module 5 Non-pharmacological treatments
- Module 6 Pharmacological management
- Module 7 Cross-cultural and transnational considerations

Currently in revision – release 2012

Encourage a Colleague to Join

The International Psychogeriatric Association (IPA) is the leading multi-disciplinary, international organization dedicated to the advancement of geriatric mental health knowledge.

Benefits of IPA Membership Include

- An opportunity to **interact with colleagues** around the world who share an interest in advancing research, education, and theory about mental health in older people.
- **Education and meetings** reflecting the many disciplines in Psychogeriatrics and the collective expertise of the world; IPA members receive special “members only” rates for all our meetings and activities.
- A subscription to ***International Psychogeriatrics***, IPA’s peer-reviewed journal, which currently includes ten issues per year and any additional special-focus supplements. In 2012, ***International Psychogeriatrics*** will become a monthly journal with 12 issues per year.
- The ***IPA Bulletin***, an informative electronic newsletter.
- **IPA Online** – the IPA website – including member area with special features including access to fellow members, and the IPA Learning Portal.
- Support the **growth of Psychogeriatrics around the world**.
- **Behavioral and Psychological Symptoms of Dementia (BPSD) Education Materials** are available to IPA members in electronic format at no charge. The BPSD materials include the *newly revised* seven module *IPA Complete Guide to BPSD*, the *Primary Care Physician’s Guide to BPSD*, and the *Nurses’ Guide to BPSD*.

IPA’s membership dues have been adjusted to accommodate the needs of a wide variety of colleagues worldwide. To find out what the membership rates are for your country, please visit www.ipa-online.org.

*To join or to obtain a membership application,

CAMBRIDGE
UNIVERSITY PRESS

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.478 (2010). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org/ipg and www.ipa-online.org).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website journals.cambridge.org/ipg. Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.

CONTENTS

- Guest Editorial** 1531 **Age, Alzheimer's disease, and the big picture**
Mary Ganguli and Eric Rodriguez (USA)
- Review** 1535 **Advance care planning for people with dementia: a review**
Karen Harrison Denning, Louise Jones and Elizabeth L. Sampson (UK)
- Original Research Articles** 1552 **Perseverative errors on the Wisconsin Card Sorting Test and brain perfusion imaging in mild Alzheimer's disease**
Seishi Terada, Shuhei Sato, Hajime Honda, Yuki Kishimoto, Naoya Takeda, Etsuko Oshima, Osamu Yokota and Yosuke Uchitomi (Japan)
- 1560 **Differentiating illiteracy from Alzheimer's disease by using neuropsychological assessments**
Jung-Hae Youn (Korea), Maryse Siksou (France), R. Scott Mackin (USA), Jung-Seok Choi (Korea), Jeanyung Chey (Korea) and Jun-Young Lee (Korea)
- 1569 **The use of the Digit Span Test in screening for cognitive impairment in acute medical inpatients**
Jess L. M. Leung, Gary T. H. Lee, Y. H. Lam, Ray C. C. Chan and Jimmy Y. M. Wu (Hong Kong)
- 1575 **Effects of age, education and gender in the Consortium to Establish a Registry for the Alzheimer's Disease (CERAD)-Neuropsychological Assessment Battery for Cantonese-speaking Chinese elders**
Karen P. Y. Liu, Michael C. C. Kuo, Kin-chung Tang, Allison W. S. Chau, Iris H. T. Ho, Matthew P. H. Kwok, Wallis C. W. Chan, Roy H. K. Choi, Natalie C. W. Lam, Mary M. L. Chu and Leung-wing Chu (Hong Kong)
- 1582 **The Montreal Cognitive Assessment (MoCA) in geriatric rehabilitation: psychometric properties and association with rehabilitation outcomes**
Lisa Sweet, Mike Van Adel, Valerie Metcalf, Lisa Wright, Anne Harley, René Leiva and Vanessa Taler (Canada)
- 1592 **Clock Drawing Test – screening utility for mild cognitive impairment according to different scoring systems: results of the Leipzig Longitudinal Study of the Aged (LEILA 75+)**
Lena Ehreke, Tobias Luck, Melanie Lupp, Hans-Helmut König, Arno Villringer and Steffi G. Riedel-Heller (Germany)
- 1602 **Luria's three-step test: what is it and what does it tell us?**
Myron F. Weiner, Linda S. Hynan, Heidi Rossetti and Jed Falkowski (USA)
- 1607 **Plasma homocysteine and cognitive decline in older hypertensive subjects**
Sunil K. Narayan, Brian K. Saxby, Michael J. Firbank, John T. O'Brien, Frances Harrington, Ian G. McKeith, Monica Hansrani, Gerard Stansby and Gary A. Ford (UK)
- 1616 **Comparison of behavioral and psychological symptoms of dementia and psychotropic drug treatments among old people in geriatric care in 2000 and 2007**
Hugo Lövhelm, Yngve Gustafson, Stig Karlsson and Per-Olof Sandman (Sweden)
- 1623 **Nationwide study of antipsychotic use among community-dwelling persons with Alzheimer's disease in Finland**
Marja-Liisa Laitinen (Finland), J. Simon Bell (Finland/Australia), Piia Lavikainen, Eija Lönnroos, Raimo Sulkava and Sirpa Hartikainen (Finland)
- 1632 **Psychotropic drug prescription in nursing home patients with dementia: influence of environmental correlates and staff distress on physicians' prescription behavior**
Sytse U. Zuidema, Jos F. M. de Jonghe, Frans R. J. Verhey and Raymond T. C. M. Koopmans (The Netherlands)
- 1640 **Continuous use of antipsychotics and its association with mortality and hospitalization in institutionalized Chinese older adults: an 18-month prospective cohort study**
Tuen-Ching Chan, James Ka-Hay Luk, Yat-Fung Shea, Ka-Hin Lau, Felix Hon-Wai Chan, Gabriel Ka-Kui Yu and Leung-Wing Chu (China)
- 1649 **The Hospital Dementia Services Project: age differences in hospital stays for older people with and without dementia**
Brian Draper, Rosemary Karmel, Diane Gibson, Ann Peut and Phil Anderson (Australia)
- 1659 **Delirium superimposed on dementia: defining disease states and course from longitudinal measurements of a multivariate index using latent class analysis and hidden Markov chains**
Antonio Ciampi, Alina Dyachenko, Martin Cole and Jane McCusker (Canada)
- 1671 **Treatment characteristics of delirium superimposed on dementia**
Soenke Boettger, Steven Passik and William Breitbart (USA)
- 1677 **The relationship between loneliness and passive death wishes in the second half of life**
Liat Ayalon and Sharon Shiovitz-Ezra (Israel)
- 1686 **Risk factors for PTSD after Typhoon Morakot among elderly people in Taiwanese aboriginal communities**
Yi-Lung Chen, Chung-Sheng Lai, Wu-Tsung Chen, Wen-Yau Hsu, Yi-Cheng Wu, Peng-Wei Wang and Cheng-Sheng Chen (Taiwan)
- Protocol-Only Paper** 1692 **Quality of life in dementia patients: nursing home versus home care**
Azlina Wati Nikmat, Graeme Hawthorne (Australia) and S. Hassan Al-Mashoor (Malaysia)
