The Lexicon in Acquisition

EVE V. CLARK

Eve Clark argues for the centrality of the lexicon in language and language acquisition. Starting with children's emerging knowledge of conventional words and meanings, she takes up their growing knowledge of word structure as reflected in their formation of new words.

Applied Psycholinguistics

Applied Psycholinguistics publishes original research papers on the psychological processes involved in language. Articles in *Applied Psycholinguistics* address the nature, acquisition and impairments of language expression and comprehension, including writing and reading.

Volume 16 in 1995: March, June, September and December: £77 for institutions, £37 for individuals, £27 for members of American Psychological Society, American Psychological Association, American Speech-Language-Hearing Association and International Pragmatics Association, airmail £14 extra. ISSN 0142-7164.

Journal of Linguistics

Journal of Linguistics is concerned with all branches of theoretical linguistics, including syntax, morphology, phonology, phonetics, semantics, pragmatics and historical, sociological, computational and psychological aspects of language and linguistic theory.

Volume 31 in 1995: March and September £53 for institutions, £42 for individuals, airmail £12 extra. Special arrangements exist for Linguistics Association of Great Britain members. ISSN 0022-2267.

Language in Society

Language in Society is an international journal of sociolinguistics concerned with all branches of speech and language as aspects of social life. Published quarterly, the journal includes empirical articles of general theoretical, comparative or methodological interest.

Volume 24 in 1995: March, June, September and December: £78 for institutions, £29 for individuals, £25 for members of Teachers of English as a Second or Other Language, American Council for Teachers of Foreign Languages, International Pragmatics Association and American Sociological Association, airmail £16 extra. ISSN 0047-4045.

Phonology

An authoritative periodical devoted exclusively to phonology. Reflecting both theoretical and empirical interests *Phonology* creates a unique forum for the productive interchange of ideas among phonologists and those working in related disciplines.

Volume 12 in 1995: May, August and December £63 for institutions; £36 for individuals; airmail £11 extra. ISSN 0952-6757

Language Variation and Change

Language Variation and Change concentrates on the details of linguistic structure in actual speech production and processing (or writing), including contemporary or historical sources. It is the only journal dedicated exclusively to the study of linguistic variation and the capacity to deal with systematic and inherent variation in synchronic and diachronic linguistics.

Volume 7 in 1995: June and December £37 for institutions, £18 for individuals, £14 for members of Teachers of English as a Second or Other Language, American Council of Teachers of Foreign Languages, International Pragmatics Association and New Ways of Analyzing Variation, £14 for students, airmail £7 extra. ISSN 0954-3945.
