of the

AUSTRALIAN MATHEMATICAL SOCIETY

Volume 36 Number 2

October 1987

Perturbation of nodes and poles in certain rational interpolants by M. A. Bokhari	177
Conformally natural Ahlfors-Weill sections and Bers reproducing formulas by Subhashis Nag	187
Approximation by smooth embedded hypersurfaces with positive mean curvature by Fang Hua Lin	197
Minimality and stability of minimal hypersurfaces in \mathbb{R}^n by Fang Hua Lin	209
A note on immersing manifolds in euclidean spaces by Ng Tze Beng	215
A characterisation of the absolute quasi-retracts in a class of acrylic continua by V. N. Akis and D. W. Curtis	227
Solving singular integral equations via (0,2,3) lacunary interpolation by Ezio Venturino	239
The dimension of graphs with respect to the direct powers of a two-element graph by Klaus Kriegel, Reinhard Poschel and Walter Wessel	251
Operators on locally convex spaces of vector-valued continuous functions by A. García López	267
The circle group by Sidney A. Morris	279
The closed graph theorem without category by Charles Swartz	283
Forced oscillations of solutions of parabolic equations by Norio Yoshida	289
Fixed point theory and complementarity problems in Hilbert space by G. Isaac	295
Remarks on generalised power sums by Robert S. Rumley and A. J. van der Poorten	311
ABSTRACTS OF AUSTRALASIAN Ph.D.	
A mathematical model of the business cycle by Ian Boyd	331
Number sequences and phyllotaxis by Tony van Ravenstein	333
Numerical and analytical solutions of the kinematic approximation for flows over surface elements by Shirley Yolande Hairsine	337
Algebraic structure of degenerate systems by Hendrik Grundling	341
The growth of stratified groups by Nicholas Billington	345
Non-LTE scattering resonance polarization in solar spectral lines by Gary Joseph Saliba	349
Recursive estimation in the general linear model by Susanti Irianto	351

BULLETIN OF THE AUSTRALIAN MATHEMATICAL SOCIETY

Editors: Sheila Oates-Williams Deputy Editor: A. S. Jones
Honorary Editor: B. H. Neumann

Associate Editors

Robert S. Anderssen	P. Donovan	D. C. Hunt	Leon Simon
Alan L. Andrew	B. J. Gardner	B. D. Jones	Ross Street
E. J. Billington	J. R. Giles	P. E. Kloeden	G. Szekeres
B. D. Craven	J. R. J. Groves	S. A. Morris	D. G. Tacon
Brian A. Davey	J. A. Hempel	G. B. Preston	E. U. Tarafdar
Peter G. Dodds	D. A. Holton	J. H. Rubinstein	Colin J. Thompson
A. J. van der Poorten		N. C. Weber	

Assistant Editors

K. G. Smith G. A. Chandler

INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after a careful evaluation by the Editor and an Associate Editor or other expert in the field.

As even minor revisions are generally not permitted, authors should read carefully all the details listed below and on the inside back cover.

For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Nevertheless some meritorious papers will have to be rejected because speed of publication involves space limitations.

Authors should submit THREE clean, high quality copies to

The Editor, Bulletin of the Australian Mathematical Society,
Department of Mathematics, University of Queensland,
St. Lucia, Queensland, 4067, Australia

but should not send the original typescript of their papers, as material submitted to the BULLETIN will usually not be returned. Authors should note that each paper submitted must include an abstract and one or more classification numbers following the 1980 Mathematics Subject Classification (1985 Revision).

Abstracts of PhD Theses

The BULLETIN endeavours to publish abstracts of all accepted Australasian PhD theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 6 months of the degree being approved.

©Copyright Statement. Where necessary, permission to photocopy for internal or personal use or the internal or personal use of specific clients is granted by the Treasurer, Australian Mathematical Publishing Association, Inc., for libraries and other uses registered with the Copyright Clearance Center (CCC), provided that the base fee of \$A2.00 per copy of article is paid directly to CCC, 21 Congress Street, Salem, MA 01970, U.S.A. Special requests should be addressed to the Treasurer, Australian Mathematical Publishing Association, Inc., c/- Department of Mathematics, University of Queensland, St. Lucia, Qld., 4067, Australia. Serial-fee code 0004-9727/87 \$A2.00 + 0.00
