Special sales and supplements

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

Subscription information

Public Health Nutrition is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

Annual subscription rates

Volume 24, 2021 (18 issues):
Internet/print package: £1390/\$2666 Americas only/€2227 EU only
Internet only: £1006/\$1909 Americas only/€1599 EU only

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Advertising: The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

Back volumes will be available in due course. Please contact Cambridge University Press for further information.

US POSTMASTERS: Please send address corrections to Cambridge University Press
1 Liberty Plaza
Floor 20, New York
NY 10006
USA

Notes for Authors are available from the publisher at the given address and can be found inside the back cover.

Offprints: The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

Copyright: As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

Public Health Nutrition is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS[®], Global Health, Index Medicus[®] (MEDLINE[®]), EMBASE, Excerpta Medica, BIOSIS[®] Database and CINAHL[®] Database. *Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Public Health Nutrition (PHN) provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

Submission: PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on phn.edoffice@cambridge.org regarding any other types of submission.

Refereeing: Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

Copyright: At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of manuscripts: Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Offprints: The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

Monitoring and surveillance

Iron deficiency anaemia and low BMI among adolescent girls in India: the transition from 2005 to 2015
Saverio Bellizzi, Giuseppe Pichiari, Catello M Panu Napodano, Paola Salaris, Maura Fiamma, Claudio Fozza and Luca Cegolon 1577

Have socio-economic inequalities in sugar purchasing widened? A longitudinal analysis of food and beverage consumer data from British households, 2014–2017
Nicolas Berger, Steven Cummins, Richard D Smith and Laura Cornelisen 1583

Seven-year trends in the availability, sugar content and serve size of single-serve non-alcoholic beverages in New Zealand: 2013–2019
Teresa Gontijo de Castro, Helen Eyles, Cliona Ni Mhurchu, Leanne Young and Sally Mackay 1595

Assessment and methodology

Validation of a revised General Nutrition Knowledge Questionnaire for Australia
Courtney Thompson, Helen Anna Vidgen, Danielle Gallegos and Mary Hannan-Jones 1608

Determinants of household vulnerability to food insecurity during COVID-19 lockdown in a mid-term period in Iran
Mohammad Reza Pakravan-Charvadeh, Moselm Savari, Haider A Khan, Saeid Gholamrezaei and Cornelia Flora 1619

Nutritional status and body composition

Food insecurity, diet quality and body composition: data from the Healthy Life Trajectories Initiative (HeLTI) pilot survey in urban Soweto, South Africa
Sarah H Kehoe, Stephanie V Wrottesley, Lisa Ware, Alessandra Prioreschi, Catherine Draper, Kate Ward, Stephen Lye and Shane A Norris 1629

Food and nutrient intake and diet quality among older Americans
Yeon Jin Choi, Eileen M Crimmins, Jung Ki Kim and Jennifer A Ailshire 1638

Weight self-perception in adolescents: evidence from a population-based study
Mariana Contiero San Martini, Daniela de Assumpção, Marilisa Berti de Azevedo Barros, Antônio de Azevedo Barros Filho and Josiemer Mattei 1648

Behavioural nutrition

Using the COM-B model to identify barriers and facilitators towards adoption of a diet associated with cognitive function (MIND diet)
Deirdre Trimlin, Jacqueline M McCormack and Ellen EA Simpson 1657

Is late bedtime an overlooked sleep behaviour? Investigating associations between sleep timing, sleep duration and eating behaviours in adolescence and adulthood
Anna H Grummon, Rebecca L Sokol and Leslie A Lytle 1671

Job strain is prospectively associated with a lower frequency of fruit consumption in schoolteachers
Renne Rodrigues, Marcela Maria Birolim, Selma Maffei de Andrade, Alberto Durán González, César Eumann Mesas, Rubén Fernández-Rodríguez and Arthur Eumann Mesas 1678

Awareness and use of nutrition information predict measured and self-rated diet quality of older adults in the USA
Anna Vaudin, Edwina Wambogo, Alanna Moshfegh and Nadine R Sahyoun 1687

Nutritional epidemiology

Ultra-processed foods drive to unhealthy diets: evidence from Chile
Gustavo Cediel, Marcela Reyes, Camila Corvalán, Renata Bertazzi Levy, Ricardo Uauy and Carlos A Monteiro 1698

Dietary lutein and zeaxanthin are associated with working memory in an older population
Krystle E Zuniga, Nicholas J Bishop and Alexandria S Turner 1708

Associations between major dietary patterns and anxiety in middle-aged adults in eastern China
Feng Xu, Bao-Qiang Chong, Tong Cai, Jin-Ling Zhang and Jing Lv 1716

The risk of infectious pathogens in breast-feeding, donated human milk and breast milk substitutes
Katherine Blackshaw, Peter Valtchev, Nooshin Koolaji, Nina Berry, Aaron Schindeler, Fariba Dehghani and Richard B Banati 1725

Investigating walnut consumption and cognitive trajectories in a representative sample of older US adults
Nicholas J Bishop and Krystle E Zuniga 1741

Associations between healthy Japanese dietary patterns and depression in Japanese women
Kanae Konishi 1753

Food insecurity and mental health outcomes among homelesadults: a scoping review
Elizabeth I Loftus, James Lachaud, Stephen W Hwang and Cilia Mejia-Lancheros 1766

High prevalence of low dairy calcium intake and association with insomnia, anxiety, depression and musculoskeletal pain in university students from Jordan
Mohammad J Alkhatatbeh, Hala N Khwaleh and Khalid K Abdul-Razzak 1778

Associations between dietary intake of B-vitamins and psychological disorders among Iranian women: a cross-sectional study
Hadis Mozaffari, Manijeh Darooghegi Mofrad, Pamela J Surkan, Mohammadreza Askari and Laila Azadbakht 1787

Food availability, accessibility and dietary practices during the COVID-19 pandemic: a multi-country survey
Ali Jafri, Nonsikelelo Mathe, Elom K Aglago, Silvenus O Konyole, Moussa Ouedraogo, Keiron Audain, Urbain Zongo, Amos K Laar, Jeffrey Johnson and Dia Sanou 1798

Economics and environment

Socio-economic status and the double burden of malnutrition in Cambodia between 2000 and 2014: overweight mothers and stunted children
Michelle K Nakphong and Hiram Beltrán-Sánchez 1806

Students choosing fat-free chocolate milk during school lunch consume more calories, total sugar, protein, minerals and vitamins at lunch
Janet G Peckham, Jaclyn D Kropp, Thomas A Mroz, Vivian Haley-Zitlin and Ellen Granberg 1818

Impact of sugar-sweetened beverage taxes on price, import and sale volumes in an island: interrupted time series analysis
Andrea M Teng, Murat Genç, Josephine Herman, Louise Signal, Danny Areai and Nick Wilson 1828

Coronavirus disease 2019, food security and maternal mental health in Ceará, Brazil: a repeated cross-sectional survey
Hermano AL Rocha, Christopher R Sudfeld, Alvaro JM Leite, Sabrina GMO Rocha, Márcia MT Machado, Jocileide S Campos, Anamaria Ce Silva and Luciano L Correia 1836

The more that households prioritise healthy eating, the better they can afford to consume a sufficient quantity and variety of fruits and vegetables
Hayden Stewart, Jeffrey Hyman, Diansheng Dong and Andrea Carlson 1841

Healthy eating: a matter of prioritisation by households or policymakers?
Joreintje Dingena Mackenbach 1851

Community nutrition

Effectiveness of a nutrition education and intervention programme on nutrition knowledge and dietary practice among Princess Nourah Bint Abdulrahman University's population
Abeer Salman Alzaben, Noha Ibrahim Alnashwan, Afnan Abdullah Alatr, Nourah Abdullah Alnenghamshi and Anwar Mohammed Alhashem 1854

Urinary sodium excretion and dietary sources of sodium intake in community-dwelling Chinese adults aged 50 years and over
Suey SY Yeung, Ruth SM Chan, Liz Li, Jason Leung and Jean Woo 1861

Dietary diversity and mental health in preschoolers in rural China
Shaoping Li, Kevin Chen, Chengfang Liu, Jieying Bi, Zhenya He, Renfu Luo, Yanjing Yu and Zimeiyi Wang 1869

Food insecurity and depression among low-income adults in the USA: does diet diversity play a role? Findings from the 2013–2014 National Health and Nutrition Examination Survey
Marie-Rachel Narcisse, Holly C Felix, Christopher R Long, Emily S English, Mary M Bailey and Pearl A McElfish 1877

Food insecurity among graduate students: prevalence and association with depression, anxiety and stress
Jaime A Coffino, Samantha P Spoor, Rae D Drach and Julia M Hormes 1889

Frequency of legume consumption related to sociodemographic factors, health status and health-related variables among surveyed adults from Poland
Katarzyna Beata Skórska, Halina Grajeta and Katarzyna Agnieszka Zabłocka-Słowińska 1895

Interventions

Challenges of making healthy lifestyle changes for families in Aotearoa/New Zealand
Cervantée EK Wild, Ngauru T Rawiri, Esther J Willing, Paul L Hofman and Yvonne C Anderson 1906

Knowledge, opinions and expectations of adults concerning personalised genotype-based dietary recommendations: a German survey
Sandra Bayer, Theresa Drabsch, Gunther Schaubberger, Hans Hauner and Christina Holzapfel 1916

After-school nutrition education programme improves eating behaviour in economically disadvantaged adolescents
Pei-Yi Shen, Yuan-Ting C Lo, Zizwani Brian Chilinda and Yi-Chen Huang 1927

Public policies

Small food store retailers' views on healthy food retail policy in response to a local staple foods ordinance
Cydney M McGuire, Megan R Winkler, Kathleen M Lenk, Lisa Harnack, Darin J Erickson and Melissa N Laska 1934

Socioeconomic determinants of excess weight and obesity among Indigenous women: findings from the First National Survey of Indigenous People's Health and Nutrition in Brazil
Carlos EA Coimbra, Jr., Felipe G Tavares, Aline A Ferreira, James R Welch, Bernardo L Horta, Andrey M Cardoso and Ricardo Ventura Santos 1941

Sustainability

Designing a healthy, low-cost and environmentally sustainable food basket: an optimisation study
Hassan Eini-Zinab, Seyyed Reza Sobhani and Arezoo Rezazadeh 1952

Development and testing of the Sustainable Nutrition Environment Measures Survey for retail stores in Ontario
Sadaif Mollaei, Goretti M Dias and Leira M Minaker 1962

Erratum

Determinants of household vulnerability to food insecurity during COVID-19 lockdown in a mid-term period in Iran – ERRATUM
Mohammad Reza Pakravan-Charvadeh, Moselm Savari, Haider A Khan, Saeid Gholamrezaei and Cornelia Flora 1972

Awareness and Use of Nutrition Information Predict Measured and Self-Rated Diet Quality of Older Adults in the United States – ERRATUM
Anna Vaudin, Edwina Wambogo, Alanna Moshfegh and Nadine R Sahyoun 1973
