

Index of Subjects

- Airborne staphylococci in the surgical ward, 207
 Antibiotic sensitivity of the biotypes of *Brucella abortus*, 165
 Antibodies, the occurrence of neutralizing and complement fixing, in rubella, 409
 Antibody to *Herpesvirus hominis*, incidence in the population, 395
 Attenuation of virulence in *Vibrio cholerae*, 135
- Bittner and influenza viruses, a morphological comparison of, 467
Bordetella parapertussis suspensions; effect of their addition to diphtheria-tetanus-pertussis vaccines, 435
Brucella abortus, sensitivity to three antibiotics used in selective media, and the description of a new biotype, 165
- Carriage of *Pseudomonas aeruginosa* in the intestine of the newborn, 219
 Carriage of *Staphylococcus aureus* in nose and on skin of patients undergoing surgical operation, 559
 Carriage of *Staphylococcus aureus* in random samples of a normal population, 567
 Children in hospital with respiratory and diarrhoeal illnesses; a comparative virological study of, 9
 Classification of *Mycobacterium avium* and related opportunist mycobacteria met in England and Wales, 575
Clostridium welchii, heat resistance of spores of, 359
 Communion cup, experiments on, 37
 Comparison of RK 13, vervet monkey kidney and patas monkey kidney cell cultures for the isolation of rubella virus, 263
- Date of infection; estimation of, from individual response times, 131
 Diarrhoea in children, associated with *Edwardsiella tarda*, 293
 Diphtheria toxoid, thermal inactivation of, after drying by sublimation *in vacuo*, 49
 Dip-Slide, the: a modified dip-inoculum transport medium for the laboratory diagnosis of infections of the urinary tract, 367
 Disinfection of cubicles with formaldehyde, 115
 Dose-response relationship, secondary response and competition of antigens after immunization of man with salmonella vaccine and tetanus-diphtheria vaccine, 457
- Edwardsiella tarda* in a study of juvenile diarrhoea, 293
 Epizootiology of rinderpest in blue wildebeest and other game species of Northern Tanzania and Southern Kenya, 1965-7, 537
 Estimating the date of infection from individual response times, 131
 Examination of samples infected with multiple salmonella serotypes, 423
 Experiments on the communion cup, 37
- Foot-and-mouth disease virus; factors affecting the production of, in deep suspension cultures of BHK 21 Clone 13 cells, 273
 Formaldehyde, experiments with, for terminal disinfection of cubicles, 115
- Genetic marker studies of poliovirus. I, 67; II, 77
- Heat resistance of spores of *Clostridium welchii*, 359
 Herpes simplex virus, the progression of, to the central nervous system of the mouse, 173
Herpesvirus hominis antibody in the population, 395
 Hospital infection; ward floors and other surfaces as reservoirs of, 515
- Immunization of man with typhoid and cholera vaccine. Agglutinating antibodies after intracutaneous and subcutaneous injection, 449

- Immunization of man with salmonella vaccine and tetanus-diphtheria vaccine. Dose-response relationships, secondary response, and competition of antigens, 457
- Inclusion blennorrhoea and trachoma agents; the first cycle of growth in the chick embryo of, 109
- Infection by *Pseudomonas aeruginosa* in a Premature Baby Unit, 219
- Infections of the respiratory tract by *Pseudomonas aeruginosa* in patients receiving mechanical ventilation, 229
- Infections of the respiratory tract in the primary school child, and their virus aetiology, 475
- Influenza vaccine, living, prepared from the Iksha (A2) strain, 245
- Influenza vaccines, oil adjuvant and aqueous. I. Reactions to the vaccines, 485: II. Antibody responses to the vaccines, 497
- Influenza virus, Asian, used as a living vaccine. Laboratory studies, 255
- Influenza and Bittner viruses, a morphological comparison of, 467
- Intracutaneous and subcutaneous injection of typhoid and cholera vaccines, 449
- Isolation of salmonellas from animal feedingstuffs, 237
- Leptospira*, low temperature preservation of, 373
- Live influenza vaccine prepared from the Iksha (A2) strain; reactions and antibody response to, 245; laboratory studies on, 255
- Meat, imported canned, associated with salmonella food poisoning, 1
- Meat imported from South American countries, *Salmonella* in, 321
- Mercury resistance and tetracycline resistance in *Staphylococcus aureus*, 299
- Molluscum contagiosum in the north-east of Scotland and in Fijian village settlements, 281
- Mycobacterium avium* and related opportunist mycobacteria met in England and Wales, 575
- Mycoplasma suis pneumoniae*, characterization of, 85
- Operating room ventilating systems compared, 193
- Poliomyelitis in the Netherlands before and after vaccination with inactivated poliovaccine, 547
- Phage typing of *Staphylococcus aureus* from dairy cattle in Australia, 311
- Pigs, enzootic pneumonia of, caused by *Mycoplasma suis pneumoniae*, 85
- Poliovirus, genetic marker studies of. I, 67; II, 77
- Prevention of staphylococcal infection among infants and mothers after childbirth in hospital and at home, 381
- Progression of herpes simplex virus to the central nervous system of the mouse, 173
- Pseudomonas aeruginosa* (*pyocyanea*) infection in a Premature Baby Unit, with observations on the intestinal carriage of *Pseudomonas aeruginosa* in the newborn, 219
- Pseudomonas aeruginosa* respiratory tract infections in patients receiving mechanical ventilation, 229
- Respiratory illness and viral infection in an Edinburgh nursery, 25
- Respiratory virus infections of the inhabitants of Tristan da Cunha, serological studies, 327
- Response to warfarin in a non-inbred strain of mice. The effect of sex and age, 55
- Rinderpest virus infection in game animals of N. Tanganyika and S. Kenya 1960-63, 343
- Rinderpest, epizootiology of in blue wildebeest and other game species of Northern Tanzania and Southern Kenya, 1965-7, 537
- Rubella, neutralizing and complement fixing antibodies, 409
- Rubella virus, comparison of kidney cell cultures for isolation, 263
- Salmonella; examination of samples infected with multiple serotypes of, 423
- Salmonella choleraesuis*, human infections in Hong Kong, 149
- Salmonella food poisoning associated with imported canned meat, 1
- Salmonella* in meat imported from South American countries, 321
- Salmonella isolation from animal feedingstuffs, 237
- Staphylococcal infection and its prevention among infants and mothers after childbirth in hospital and at home, 381

- Staphylococci in the air of the surgical ward, 207
- Staphylococcus aureus* strains of phage-group IV, 439
- Staphylococcus aureus*, nasal and skin carriage of, by patients undergoing surgical operation, 559
- Staphylococcus aureus*, carriage of, in random samples of a normal population, 567
- Staphylococcus aureus*, mercury resistance and tetracycline resistance in, 299
- Staphylococcus aureus* from dairy cattle in Australia, phage typing of, 311
- Tern virus, experimental infection of Common Terns with, 61
- Tristan da Cunha inhabitants, respiratory virus infections of, 327
- Trachoma and inclusion blennorrhoea agents; the first cycle of growth in the chick embryo, 109
- Trachoma vaccines, immunogenicity experiments in baboons, III, 97
- Vaccination with inactivated poliovaccine in the Netherlands; poliomyelitis before and after, 547
- Vaccines, diphtheria-tetanus-pertussis; the effect of the addition of *Bordetella parapertussis* suspensions, 435
- Vaccines by intracutaneous and subcutaneous injection for immunization against typhoid and cholera, 449
- Vaccine, living, prepared from Asian influenza virus, 245, 255
- Vaccines, trachoma, immunogenicity of, in baboons, 97
- Vaccine against yellow fever, free from avian leucosis virus, 505
- Ventilating systems in an operating room, 193
- Vibrio cholerae*, attenuation of virulence in, 135
- Viral infection and respiratory illness in an Edinburgh nursery, 25
- Virological study of children in hospital with respiratory and diarrhoeal illnesses, 9
- Virus aetiology of mild respiratory infections in the primary school child, 475
- Viruses: avian leucosis, 505; Bittner, 467; foot-and-mouth disease, 273; herpes simplex, 173; influenza, 245, 255, 467; polio, 67, 77; respiratory, 327; rinderpest, 343; rubella, 263; Tern, 61; yellow fever, 505
- Ward floors and other surfaces as reservoirs of hospital infection, 515
- Warfarin, the effect of sex and age on the response to, in a non-inbred strain of mice, 55
- Yellow fever vaccine free from avian leucosis viruses, 505
