

Executive Program Committee**Program Chair:** John Henry Scott, *NIST***Program Vice-Chair:** Janet H. Woodward, *Buckman Laboratories***MAS Program Co-Chair:** Paul Carpenter, *Washington University***IMS Program Co-Chair:** Jaret Frafjord, *Y-12 National Security Complex***Committee Members and Session Chairs**

I. Arslan, Sandia National Laboratories
 D. G. Bear, University of New Mexico
 D. R. Beniac, Public Health Agency of Canada
 L. N. Brewer, Sandia National Laboratories
 N. D. Browning, Lawrence Livermore National Laboratory
 E. Bullitt, Boston University School of Medicine
 R. W. Carpenter, Arizona State University
 J. L. Carson, University of North Carolina at Chapel Hill
 E. Corral, Sandia National Laboratories
 P. A. Crozier, Arizona State University
 I. Davidson, AWE, United Kingdom
 D. P. Dennies, Boeing
 L. M. DiMemmo, Bristol-Myers Squibb
 A. Dohnalkova, Pacific Northwest National Laboratory
 J. J. Donovan, University of Oregon
 B. Foran, Aerospace Corporation
 J. Fulghum, University of New Mexico
 L. M. Gammon, The Boeing Company
 B. Gauntt, Pennsylvania State University
 R. Gauvin, McGill University, Canada
 L. A. Giannuzzi, FEI Company
 D. R. Giovannucci, University of Toledo
 C. S. Goldsmith, Centers for Disease Control and Prevention
 B. P. Gorman, University of North Texas
 B. Hartman, Schering-Plough
 W. A. Heeschen, Dow Chemical Company
 A. Hoenger, University of Colorado
 D. C. Joy, University of Tennessee
 M. J. Kim, University of Texas at Dallas
 D. T. Kremser, Battelle Memorial Institute
 R. Leapman, National Institutes of Health
 J. Lewellen, Argonne National Laboratory
 A. J. Lockley, AECL, Canada
 H. A. Lowers, US Geological Survey

C. E. Lyman, Lehigh University
 J. Mackenzie, North Carolina State University
 C. M. MacRae, CSIRO-Minerals, Australia
 P. Mainwaring, Gatan, Inc.
 G. P. Meeker, US Geological Survey
 M. C. Morais, University of Texas Medical Branch
 I. H. Musselman, University of Texas at Dallas
 D. E. Newbury, National Institute of Standards and Technology
 O. Nishikawa, Kanazawa Institute of Technology, Japan
 R. Noecker, ExxonMobil
 J. A. Ohlhausen, Sandia National Laboratories
 R. Oldenbourg, Marine Biological Laboratory
 R. A. Panaro, Oak Ridge National Laboratory
 J. Panitz, High-Fields Consultants
 V. Z. Poenitzsch, Southwest Research Institute
 B. Rajwa, Purdue University
 N. W. M. Ritchie, National Institute of Standards and Technology
 J. P. Robinson, Purdue University
 D. R. Rothe, Dow Chemical Company
 T. Ruiz, University of Vermont
 P. E. Russell, Appalachian State University
 N. Saenz, Pacific Northwest National Laboratory
 R. L. Schalek, Harvard University
 H. Schatten, University of Missouri-Columbia
 F. E. Schmidt, Engineering Systems Inc
 E. F. Schumacher, McCrone Associates, Inc.
 P. R. Schwoebel, University of New Mexico
 R. Sharma, Arizona State University
 R. B. Simmons, Georgia State University
 V. S. Smentkowski, General Electric Global Research
 R. W. Smith, Portland State University
 M. Spilde, University of New Mexico
 E. A. Stach, Purdue University

A. C. Steven, National Institutes of Health
D. J. Stokes, FEI Company, The Netherlands
D. F. Susan, Sandia National Laboratories
M. L. Taheri, Lawrence Livermore National Laboratory
G. B. Thompson, University of Alabama
G. Torraca, Amgen
M. D. Uchic, Wright Patterson Air Force Base
E. P. Vicenzi, Smithsonian Institute
M. Vogel, Harvard University

P. M. Voyles, University of Wisconsin Madison
M. Watanabe, Lawrence Berkeley National Laboratory
T. G. Williams, US Department of Agriculture
D. F. Wood, US Department of Agriculture
V. P. Woodward, Lubrizol Advanced Materials
A. Ziegler, Max Planck Institute for Biochemistry, Germany
I. Anderson, NIST
P. Kotula, Sandia National Laboratories
M. Marko, Wadsworth Center
