Medicine

Books and Journals from Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.

The Society for Healthcare
Epidemiology of America

CDC/SHEA Outbreak Response Training Program (ORTP)

Designed to provide US hospital epidemiologists who oversee infection control programs with the skills, knowledge, and tools available to effectively lead outbreaks at both facility-level outbreaks & large-scale public health emergencies.

In-Person Workshop

Complimentary Registration

OPEN NOW

January 23 – 24, 2018

Los Angeles, California

The Garland Hotel

4222 Vineland Ave

North Hollywood, CA 91602

This in-person training workshop includes lectures, case-studies, and working sessions to educate healthcare epidemiologists on how to effectively lead their facilities response during public health emergencies and facility outbreaks.

Thanks to funding from the Centers for Disease Control and Prevention (CDC), ORTP programming is at NO COST to the participants.
