Are you a psychiatry trainee seeking forensic psychiatry training? Are you looking for an opportunity to work with a leading provider of forensic mental health services? Come and work for Forensicare.

WHO WE ARE

Located in the most liveable city in the world, Melbourne, Australia, Forensicare (Victorian Institute of Forensic Mental Health) works to meet the needs of mental health consumers with serious mental illnesses across Victoria's justice system, mental health sectors and the community.

WHAT WE DO

We deliver a range of programs targeted at patients with different needs at different stages of recovery; from early intervention and prevention, inpatient care, rehabilitation and community transition support. These services are delivered through:

- Thomas Embling Hospital: a 116 bed, secure mental health hospital
- Prison Mental Health Services: a range of specialist mental health clinics and services across Victoria's men's and women's prisons.
- Community Forensic Mental Health Service: specialist community mental health programs including community integration, problem behaviour and court services.

We also work in partnership with Swinburne University of Technology's Centre for Forensic Behavioural Science to deliver an internationally recognised forensic mental health research program, specialist training and ongoing professional education.

WHAT YOU'LL DO

We are offering fixed term positions (up to 2 years) for Registrars available from August 2017 and February 2018. Exposure to rotations at the new purpose built forensic mental health facility at Ravenhall Prison, scheduled for completion in late 2017, will also be on offer. We offer flexible working hours, with a Monday to Friday roster and on-call to cover weekends.

WHAT WE OFFER YOU

Applicants for this position will be able to participate in Forensicare's Training Program for Registrars, which is accredited as meeting the standards of the Royal Australian and New Zealand College of Psychiatrists (RANZCP) for both Generalist and Forensic sub-specialty training. All posts are RANZCP accredited and supervised by RANZCP accredited supervisors.

WHAT WE'RE LOOKING FOR

Prior experience in Forensic Psychiatry is highly desirable. Enrolment in core or specialist training in psychiatry is crucial.

JOURNALS

International Psychogeriatrics

Published for the International Psychogeriatric Association

Editor-in-Chief

Nicola Lautenschlager, University of Melbourne, Australia

A highly respected, multidisciplinary journal, *International Psychogeriatrics* publishes high quality original research papers in the field of psychogeriatrics. The journal aims to be the leading peer reviewed journal dealing with all aspects of the mental health of older people throughout the world. Circulated to over 1,000 members of the International Psychogeriatric Association, *International Psychogeriatrics* also features important editorials, provocative debates, literature reviews, book reviews and letters to the editor.

Psychological Medicine

Editors

Kenneth S. Kendler, Virginia Institute for Psychiatric Behavioral Genetics, Virginia, USA

Robin M. Murray, Institute of Psychiatry, London, UK

Now in its fifth decade of publication, *Psychological Medicine* is a leading international journal in the fields of psychiatry, clinical psychology and the related basic sciences. There are twelve issues per year, each featuring original articles reporting key research being undertaken worldwide, together with shorter editorials by distinguished scholars and an important book review section. The journal's success is clearly demonstrated by a consistently high Impact Factor.

Epidemiology and Psychiatric Sciences

Editor

Michele Tansella, University of Verona, Italy

Epidemiology and Psychiatric Sciences is an international, peer-reviewed journal published quarterly. It provides updated data and scientific information to epidemiologists, psychiatrists, psychologists, statisticians and other research and mental health workers primarily concerned with public health and epidemiological and social psychiatry.

INSTRUCTIONS FOR CONTRIBUTORS

SUBMISSION OF MANUSCRIPTS

All manuscripts should be submitted online via our new manuscript submission and tracking site, <http://mc.manuscriptcentral.com/ipm>. Full instructions for electronic submission are available directly from this site. If you wish to submit a book review please email your paper directly to the Editorial Office <mclesham@irishpsychiatry.ie>. To facilitate rapid reviewing, communications for peer review will be electronic and authors will need to supply a current e-mail address when registering to use the system.

All submitted material will become the property of the Journal until, and if, publication is refused. Material so referred should not be sent elsewhere for publication.

The Journal will accept for consideration original papers, brief research reports, audits, clinical case reports, review articles, historical papers, perspective articles, editorials, and letters to the editor and book reviews. Original data papers receive top priority for speedy publication.

Manuscripts should be prepared in accordance with the "Uniform Requirements for Manuscripts (URM) Submitted to Biomedical Journals" of the International Committee of Medical Journal Editors (2010).

Declaration of Interest: A statement must be provided in the acknowledgements listing all financial support received for the work and, for all authors, any financial involvement (including employment, fees, share ownership) or affiliation with any organization whose financial interests may be affected by material in the manuscript, or which might potentially bias it. This applies to all papers including editorials and letters to the editor.

Contributors should also note the following:

1. S.I. units should be used throughout in text, figures and tables.
2. Authors should spell out in full any abbreviations used in their manuscripts.
3. Foreign quotations and phrases should be followed by a translation.
4. If necessary, guidelines for statistical presentation may be found in: **Altman DG, Gore SM, Gardner MJ & Pocock SJ** (1983). Statistical guidelines for contributors to medical journals. *British Medical Journal* **286**, 1489–1493.

REFERENCES (1) The Harvard (author-date) system should be used in the text and a complete list of References cited given at the end of the article. In a text citation of a work by more than two authors cite the first author's name followed by et al. (but the names of all of the authors should be given in the References section). Where several references are cited together they should be listed in rising date order. (2) The References section should be supplied in alphabetical order (authors' names in **bold**, journal titles in full), following the text. Some examples follow:

Brown GW (1974). Meaning, measurement and stress of life events. In *Stressful Life Events: Their Nature and Effects* (ed. B. S. Dohrenwend and B. P. Dohrenwend), pp. 217-244. John Wiley: New York.

Brown J (1970). *Psychiatric Research*. Smith: Glasgow.

Brown J, Williams E, Wright H (1970). Treatment of heroin addiction. *Psychological Medicine* **1**, 134-136.

(3) Online citations

doi (when published online prior to printed issue)

Acute Health Care, Rehabilitation and Disability Prevention Research - National Center for Injury Prevention and Control. (<http://www.cdc.gov/ncipc/profiles/acutecare/default.htm>). Accessed 7 June 2004.

British Psychological Society Research Digest, Issue 12. (<http://lists.bps.org.uk/read/messages?id=1423>). Accessed 17 February 2004. [*Authors are requested to print-out and keep a copy of any online-only material, in case the URL changes or is no longer maintained.*]

FIGURES AND TABLES Only essential figures and tables should be included. Further tables, figures, photographs and appendices, may be included with the online version on the journal website. To ensure that your figures are reproduced to the highest possible standards, Cambridge Journals recommends the following formats and resolutions for supplying electronic figures. Please ensure that your figures are saved at final publication size and are in our recommended file formats. Following these guidelines will result in high quality images being reproduced in both the print and the online versions of the journal. **Line artwork:** Format: tif or eps, Colour mode: black and white (also known as 1-bit), Resolution: 1200 dpi; **Combination artwork (line/tone):** Format: tif or eps, Colour mode: grayscale (also known as 8-bit), Resolution: 800 dpi; **Black and white halftone artwork:** Format: tif, Colour mode: grayscale (also known as 8-bit), Resolution: 300 dpi; **Colour halftone artwork:** Format: tif, Colour mode: CMYK colour, Resolution: 300 dpi. All photographs, graphs, and diagrams should be referred to as figures and should be numbered consecutively in Arabic numerals. Captions for figures should be typed double-spaced on separate sheets. *Tables* Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet after the References section. Titles should be typed above the table.

PROOFS AND OFFPRINTS Page proofs will be sent to the author designated to receive correspondence. Corrections other than to printer's errors may be charged to the author. The corresponding author of each paper will receive a PDF file of their article.
