
THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 69, 2016, which includes print and electronic access, is £575 (USA, Canada and Mexico US \$1040) and includes delivery by air; single parts are available at £105 (USA, Canada and Mexico US \$188) plus postage. The electronic-only price available to institutional subscribers is £446 (USA, Canada and Mexico US \$813). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

THE JOURNAL OF NAVIGATION

VOLUME 69 NUMBER 5 SEPTEMBER 2016

CONTENTS

- An Avionics Platform for Multi-instrument Survey Navigation** 927
David H. Jones, Tom A. Jordan and Carl Robinson
- Simulating Surveillance Options for the Canadian North** 940
Anna-Liesa S. Lapinski, Anthony W. Isenor and Sean Webb
- The Seven Ways to Find Heading** 955
Kenneth Gade
- Proposed OFDM Modulation for Future Generations of GNSS Signal System** 971
Ting He and Zherui Ma
- Comparative Analysis of Height-Related Multiple Correction Interpolation Methods with Constraints for Network RTK in Mountainous Areas** 991
Junesol Song, Byungwoon Park and Changdon Kee
- Performance Analysis for BDS Phase-smoothed Pseudorange Differential Positioning** 1011
Weiming Tang, Jianhui Cui, Mengtang Hui and Chenlong Deng
- Indoor Global Localisation in Anchor-based Systems using Audio Signals** 1024
João Moutinho, Diamantino Freitas and Rui Esteves Araújo
- An Enhanced GPS/INS Integrated Navigation System with GPS Observation Expansion** 1041
Zengke Li, Jian Wang and Jingxiang Gao
- Impact of Decorrelation on Success Rate Bounds of Ambiguity Estimation** 1061
Lei Wang, Yanming Feng, Jiming Guo and Charles Wang
- Simplified Constellation Architecture for the Libration Point Satellite Navigation System** 1082
Lei Zhang and Bo Xu
- Development and Performance Validation of a Navigation System for an Underwater Vehicle** 1097
R. Ramesh, V. Bala Naga Jyothi, N. Vedachalam, G.A. Ramadass and M.A. Atmanand
- Analysis and Simulation of Geomagnetic Map Suitability Based on Vague Set** 1114
Lihui Wang, Le Yu, Nan Qiao and Desheng Sun
- Marginalized Unscented Quaternion Estimator for Integrated INS/GPS** 1125
Fangneng Li, Lubin Chang, Baiqing Hu and Kailong Li
- Clustering Bathymetric Data for Electronic Navigational Charts** 1143
Marta Włodarczyk-Sielicka and Andrzej Stateczny
- Development of a Decision Support System in Ship-To-Ship Lightering** 1154
Dagfinn Husjord
