UNIVERSITY OF OTTAWA, Faculty of Medicine.

Graduate Training Program in Neurology. Combining the neurology services of the Ottawa Civic Hospital and the Ottawa General Hospital, a four-year integrated training program fully accredited by the Royal College of Physicians and Surgeons of Canada, is offered. Trainees may enter for the entire program or at various points in it. The program contains considerable flexibility to recognize the interests and past experience of the trainee. Options are available for rotation through neuropathology, neuroradiology, neuro-ophthalmology, neuropsychology, psychiatry, EEG-clinical neurophysiology, or basic neurological sciences. The latter includes neuroanatomy, neurophysiology, neurochemistry, and neuropharmacology. Registration for University of Ottawa graduate degrees may be arranged. Approximately 25 University staff members are involved in the training program. Applicants should apply by November 30th, for the following year. Under special circumstances, or if positions are available, applications will, however, be considered at other times. Applications and requests for more details should be sent directly to **Dr. E. A. Attack, Program Director, Postgraduate Training Program in Neurology, University of Ottawa, 1081 Carling Ave. No. 303, Ottawa, Ontario K1Y 4G2.**
