## ANNOUNCEMENT

### The Paul Richards Centre, Korup National Park, Cameroun

The family and friends of Professor Paul Richards plan to celebrate his recent 80th birthday by raising funds to build and equip the Paul Richards Centre at Korup National Park near Mundemba, Cameroun. Many tropical ecologists agree that Paul Richards' book *The tropical rain forest* published in 1952 initiated the modern era of tropical rain forest research. It is therefore most apt that his influence should be commemorated by a Centre in what is regarded as the most species-rich rain forest in Africa.

Donations are invited to the 'Paul Richards Korup Fund', c/o 57 Selwyn Road, Cambridge CB3 9EA, England - UK.
