The JOURNAL publishes reviews and articles in economics, political science, sociology, and related fields. The articles are indexed in the *International Index to Periodicals* and the *Canadian Index*. Abstracts of articles in political science appear in *International Political Science Abstracts/Documentation politique internationale*.

Manuscripts and correspondence about contributions to the JOURNAL should be addressed to the Managing Editor, 273 Bloor St. W., Toronto 5. Authors are requested to submit original typescript, double-spaced, on standard typewriter paper with adequate margins. Footnotes should be typed in double space, and placed preferably in a body at the end of the article. Authors will greatly assist by checking quotations against originals before submitting copy.

Subscriptions, orders for copies of the JOURNAL, and notices of change of address, should be addressed to the Secretary-Treasurer, Canadian Political Science Association, 273 Bloor St. W., Toronto 5. Remittances should be made payable to the Canadian Political Science Association.

INTRODUCTION TO ECONOMICS, Second Edition

by THEODORE MORGAN, University of Wisconsin

Completely up-dated and thoroughly re-organized, the new Second Edition of this popular text provides your students with a sound introduction to economics—an introduction concerned with the dynamics of life rather than an isolated special discipline.

Increased emphasis on economic growth and the problems of underdeveloped areas plus greater simplicity of presentation are two features of this thorough revision.

832 pages 6" x 9" Published April 1956

ELEMENTS OF MODERN ECONOMICS, Fourth Edition

by ALBERT L. MEYERS, Georgetown University

Text expands its National Income approach to subject, but does *not* minimize importance of economics of the individual or individual firm. *Outstanding Features of the New Fourth Edition:*
1. Approach is monopolistic (or imperfect competition) and pure competition.

2. Principles presented are generously illustrated with *actual studies of the operation of large mercantile and manufacturing establishments*. 3. Coverage is broad.

518 pages 5 $\frac{1}{2}$ " x 8 $\frac{1}{4}$ "

Published February 1956

COMPARATIVE ECONOMIC ORGANIZATION

y ARTHUR ROBERT BURNS, Columbia University

Bringing a new approach to the subject, this new text explains the differences in economic development in terms of the various aspects of scarcity that face all societies. In his analysis of the diverse ways in which countries deal with their economic problems, the author considers

not only nations' general economic and political organization, but also their access to resources, methods of organizing production, and policies concerning the distribution of income.

766 pages 6" x 9" Published 1955

THE GREAT ISSUES OF POLITICS

by LESLIE LIPSON, University of California, Berkeley

This text offers a new approach to the study of political processes. These processes are presented to the reader as a series of basic issues which arise in every political system, in any kind of state, in all forms of government. The book is original in its theme and approach, treating the subject in a novel way never

before attempted. Designed as a discussion between the author and the reader, its aim is to help the reader think about the problems which are basic to politics.

431 pages 5 $\frac{1}{2}$ " x 8 $\frac{1}{2}$ "

NEW STATES AND INTERNATIONAL ORGANIZATIONS

This study deals with the special position of new states which suddenly, without the benefit of previous experience, find themselves plunged into the vortex of contemporary international life. This is the first attempt to analyse this problem from the view-point of the political scientist, and may provide a framework for future studies in the field. *Available now. \$2.50*

POLITICAL SCIENCE IN THE UNITED STATES: A TREND REPORT, By Dwight Waldo

Professor Waldo recounts the background of the unprecedented expansion which has taken place in American political studies. He includes a summary of the main traditions which have determined the direction of current work and still shape its content, and an analysis of the various approaches representative of contemporary effort in a wide variety of political studies.

May 1956. Probably \$1.10
