

Geography in the 20th Century

edited by

GRIFFITH TAYLOR

University of Toronto

This volume of over 600 pages is the work of twenty authors, each of whom is a specialist in the section with which he deals. Its aim is to study the growth, fields, techniques, aims and trends of geography. Characteristics of its evolution since 1900 are stressed.

Men of Good Hope

A Story of American Progressives

By DANIEL AARON. In this timely revaluation of the progressive idea in America, the author analyzes the social philosophy of such nineteenth-century reformers as Theodore Parker, Henry George, Edward Bellamy, William Dean Howells and Thorstein Veblen and evaluates the part each played in the development of the progressive movement. He then demonstrates the difference in attitude, and consequently, in action, between these "men of good hope" and the latter-day exponents of an opportunistic progressivism—from Brooks Adams, Theodore Roosevelt, and Woodrow Wilson through Franklin D. Roosevelt.

Mr. Aaron's implied thesis is that an effective liberalism can be achieved by combining the techniques and practical approach to politics of the pragmatic progressives with the utopian vision of the old reformers. \$4.00

Freedom, Power and Democratic Planning

By KARL MANNHEIM, *Late Professor of Sociology
in the Institute of Education, London University*

One of the most brilliant sociologists of our time here offers a body of principles on which we can build the kind of society we want, incorporating the lessons of the last decades into a new pattern of democracy. "Helps to clear up many political and economical confusions of our time."—*San Francisco Chronicle*. \$5.00
