

special exhibit area that displayed newly published books, journals, and various keepsake items.

Student activities at the annual meeting included the networking reception at the site of the Employment Center and Career Fair. The Ceramic Educational Council (CEC) sponsored an undergraduate student speaking contest. The CEC and Keramos also jointly sponsored a graduate student and an undergraduate poster competition during the Society poster session.

Various social events took place during the meeting. There was the Society opening reception at the Convention Hall that featured gourmet food and fine drinks. The attendees also had an opportunity to meet with the society officials

at the reception. At the Annual Meeting Awards Banquet, special accomplishments were recognized, including distinguished life members, honorary members, fellows, and various special awards. The ACerS President Robert Oxnard, after giving an eloquent and memorable farewell speech, handed over the position to the incoming president, James E. Houseman.

The 2001 annual meeting was a memorable meeting, not only because of the excellent scientific program, the attendees also had the opportunity to enjoy Hoosier hospitality. The weather during the meeting was rather cooperative—warm and sunny during the day and cool at night—which also contributed to the overall success of the meeting.
