A new *Monograph Supplement* (No. XV) to the *British Journal of Psychology*, with a foreword by Professor C. Spearman, who writes "Most conspicuous is the new direction that the author's results seem certain to impart to both the theory and the practice of mental testing; sooner or later, I believe, his work will ring the death-knell of all tests of 'general intelligence' in current usage."

## EPILEPSY

Is so uniformly and so remarkably benefited by the use of

### GELINEAU'S DRAGEES

(Pot. Brom.; Antim.-Arsen.; PicROTOXIN)

that no case should be considered hopeless until these Dragees have been thoroughly tried. RELIEF—AND A GREAT DEAL MORE—is usually obtained even when routine treatment fails completely.

### GELINEAU'S DRAGEES

are successfully prescribed by leading Physicians, and are used in Hospitals and Epileptic Colonies. *Their use is also indicated in the nervous and painful crises of Menstruation and in the varying manifestations of Shell Shock.*

In tins of 50 and 150. Full particulars from the general Agents for the British Empire (except Canada, Australia and New Zealand):

*The proposal to award Divisional Prizes under the conditions set out below emanated from the Irish Division and was adopted at the Annual Meeting held on July 13, 1911.*

(1) Two prizes of £10 and £5 respectively will be awarded annually by the Association (provided sufficient merit be shown) for the best paper read during the preceding calendar year at a Divisional Meeting by an Assistant Medical Officer or Assistant Physician in a Psychiatric or Neurological Institution or Service.
