The twentieth century	3371-3413

INTRODUCTION

In this issue you will find a new survey on studies of Dutch overseas expansion history, published mainly in 1984. As usual in the past couple of years this issue appears only after a certain delay. The 'normal' editorial numbers run ahead of this bibliography. The reading of so many publications, the writing of the abstracts, the typing out and the printing are a time-consuming process, during which unexpected complications may - and, indeed, do - arise. Yet the compiler will do his utmost to make up for it and reduce this time-lag to more modest proportions in the next years. The next issue, dealing with publications of 1985, is in preparation and will be out in the first months of 1987. Meanwhile it is hoped that you will find this issue a valuable researchtool. Thanks are due to those who assisted in the preparation of this issue: George Winius, Taco de Bruin, Sylvia Kleijn-Visser, Jennegien Nieuwstraten, Carin Honsbeek, and Hennie Loos.
