## **Editor**

Béla Bollobás, DPMMS, Cambridge, UK; Memphis, USA

Published bi-monthly, *Combinatorics, Probability & Computing* is devoted to the three areas of combinatorics, probability theory and theoretical computer science. Topics covered include classical and algebraic graph theory, probabilistic methods and random combinatorial structures, the theory of algorithms, computational learning theory and optimisation.

## New and Exciting Titles from Cambridge!

**New!**

### Conceptual Mathematics

A First Introduction to Categories

2nd Edition

F. William Lawvere and Stephen H. Schanuel

\$140.00: Hardback: 978-0-521-89485-2: 408 pp.  
\$60.00: Paperback: 978-0-521-71916-2

### Python for Software Design

How to Think Like a Computer Scientist

Allen B. Downey

\$90.00: Hardback: 978-0-521-89811-9: 272 pp.  
\$39.99: Paperback: 978-0-521-72596-5

### Handbook of Practical Logic and Automated Reasoning

John Harrison

\$150.00: Hardback: 978-0-521-89957-4: 702 pp.

### The Space and Motion of Communicating Agents

Robin Milner

\$99.00: Hardback: 978-0-521-49030-6: 214 pp.  
\$49.00: Paperback: 978-0-521-73833-0

### A Computational Introduction to Number Theory and Algebra

2nd Edition

Victor Shoup

\$70.00: Hardback: 978-0-521-51644-0: 598 pp.

### Analytic Combinatorics

Philippe Flajolet and Robert Sedgewick

\$90.00: Hardback: 978-0-521-89806-5: 824 pp.

### Practical Formal Software Engineering

Wanting the Software You Get

Bruce Mills

\$70.00: Hardback: 978-0-521-87903-3: 374 pp.

### Lambda-Calculus and Combinators An Introduction

2nd Edition

J. Roger Hindley and Jonathan P. Seldin

\$70.00: Hardback: 978-0-521-89885-0: 360 pp.

Prices subject to change.

## New and Forthcoming Titles from Cambridge!

### Forthcoming...

#### Process Algebra: Equational Theories of Communicating Processes

J. C. M. Baeten, T. Basten, and  
M. A. Reniers

*Cambridge Tracts in Theoretical Computer Science*

\$80.00: Hb: 978-0-521-82049-3: 440 pp.

### Forthcoming...

#### Aggregation Functions

Michel Grabisch,  
Jean-Luc Marichal,  
Radko Mesiar, and Endre Pap

*Encyclopedia of Mathematics  
and its Applications*

\$120.00: Hb: 978-0-521-51926-7:  
496 pp.

#### Topology for Computing

Afra J. Zomorodian

*Cambridge Monographs on Applied  
and Computational Mathematics*

\$39.99: Pb: 978-0-521-13609-9:  
258 pp.

#### Modelling Systems

Practical Tools and Techniques  
in Software Development

John Fitzgerald and  
Peter Gorm Larsen

\$75.00: Hb: 978-0-521-89911-6:  
304 pp.

2nd  
Edition

#### Concentration of Measure for the Analysis of Randomized Algorithms

Devdatt Dubhashi and  
Alessandro Panconesi

\$70.00: Hb: 978-0-521-88427-3:  
216 pp.

#### Handbook of Practical Logic and Automated Reasoning

John Harrison

\$150.00: Hb: 978-0-521-89957-4:  
702 pp.

#### The Space and Motion of Communicating Agents

Robin Milner

\$99.00: Hb: 978-0-521-49030-6  
\$49.00: Pb: 978-0-521-73833-0:  
214 pp.

#### Python for Software Design How to Think Like a Computer Scientist

Allen B. Downey

\$90.00: Hb: 978-0-521-89811-9  
\$39.99: Pb: 978-0-521-72596-5:  
270 pp.

#### Computer Ethics A Case-based Approach

Robert N. Barger

\$85.00: Hb: 978-0-521-88251-4  
\$39.99: Pb: 978-0-521-70914-9:  
264 pp.

A window on what mathematics can do for industry and how industry can be a source of new ideas for mathematics

Mathematics in Industry - the International Study Groups Website is sponsored by the ***European Journal of Applied Mathematics***.

The ESGI (European Study Group with Industry) is Europe's leading workshop for interaction between mathematicians and industry.

**Editor**

Sheldon M. Ross, University of Southern California, USA

The primary focus of this journal is on stochastic modelling in the physical and engineering sciences, with particular emphasis on queueing theory, reliability theory, inventory theory, simulation, mathematical finance and probabilistic networks and graphs. Papers on analytic properties and related disciplines are also considered, as well as more general papers on applied and computational probability.

[subscriptions\\_newyork@cambridge.org](mailto:subscriptions_newyork@cambridge.org)

## Editors

Françoise Blin, Dublin City University, Ireland  
June Thompson, University of Hull, UK

The primary focus of *ReCALL* is the use of technologies for  
anguage learning and teaching. It aims to appeal to  
researchers and practitioners in the area of computer-assisted  
and technology-enhanced language learning, normally but  
not exclusively operating in universities. *ReCALL* is also of  
interest to language teachers in secondary and tertiary  
education who may be considering the introduction of  
technologies into their teaching practice.

## INSTRUCTIONS TO AUTHORS

### *Scope*

Papers may describe original technical work, survey an area, or present a tutorial; and may be either short or long. Anything related to functional programming is of interest, including: *foundations* (semantics, abstract interpretation, lambda calculi, rewriting, logic, type theory, category theory); *implementation* (compilation, architectures, parallelism, garbage collection, I/O, debugging, profiling); *linguistics* (pure and impure language features, non-determinism, side effects, logical variables, relation to other programming paradigms, proofs about programs, program transformation, program synthesis, partial evaluation); *applications* (applications programs, practical experience, programming techniques, prototyping).

### *Book Reviews*

Books for review, or suggestions for reviews, should be sent to the reviews editor, Simon Thompson (address on inside front cover).

### *Submission of manuscripts*

Papers may be submitted to the Editors-in-Chief or any of the editors or directly to JFP-ed@cambridge.org. Please choose an Editor whose research interests most closely match your paper; if in doubt, send your paper to one of the Editors-in-Chief. E-mail and postal addresses for the editors appear on the inside front cover.

Please refer to journals.cambridge.org/JFP for all detailed information associated with the submission of papers to the journal.

### *Offprints*

No paper offprints are provided, but a pdf of the published article will be sent to the corresponding author.

### *Incremental Publishing and DOIs*

The Journal of Functional Programming now publishes articles incrementally online (at Cambridge Journals Online: journals.cambridge.org) as soon as author corrections have been completed and before they join a printed issue. A new reference has now been added to the first page of the article in the journal catchline. This is the DOI—The Digital Object Identifier. This is a global publishers' standard. A unique DOI number is created for each published item. It can be used for citation purposes instead of volume, issue and page numbers. It therefore suits the early citation of articles which are published on the web before they have appeared in a printed issue. journals.cambridge.org/JFP

### SUBSCRIPTIONS

*Journal of Functional Programming* (ISSN: 0956-7968 print, 1469-7653 electronic) is published bimonthly in January, March, May, July, September and November. The subscription price (excluding VAT) of Volume 19, 2009, is £400 net (USA, Canada and Mexico US\$800) institutions print and electronic; institutions electronic only is £350, \$700; individuals print only is £130, \$260; Member rates available – please enquire; single parts cost £60 net (USA, Canada and Mexico US\$120) plus postage. Six parts form a volume. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Orders, which must be accompanied by payment, may be sent to any bookseller, subscription agent or to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, New York 10994–2133. Prices include delivery by air where appropriate. Application to mail at periodicals postage rates is pending at New York, NY and at additional mailing offices. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan. Postmaster: send address changes in USA, Canada and Mexico to *Journal of Functional Programming*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994–2133.

Claims for missing issues should be made immediately on receipt of the subsequent issue.

### COPYING

This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA, 01923, USA. Organisations in the USA who are also registered with the C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0956-7968/09 \$16.

Organisations authorised by the Copyright Licensing Agency may also copy material subject to the usual conditions.

*ISI Tear Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorised to supply single copies of separate articles for private use only.

*For all other use*, permission should be sought from Cambridge or the American branch of Cambridge University Press.
