## Cost and Effectiveness of Combination Nicotine Replacement Therapy Among Heavy Smokers Contacting a Quitline–CORRIGENDUM

---

Laurie Krupski, K. Michael Cummings, Andrew Hyland, Martin C. Mahoney, Benjamin A. Toll, Matthew J. Carpenter, and Shannon Carlin-Menter

doi:[10.1017/jsc.2014.15](https://doi.org/10.1017/jsc.2014.15), Published online by Cambridge University Press, 30 June 2014.

An error has been noted in the above mentioned article by Krupski *et al.* In the discussion section in the fourth paragraph, ‘greater than 15 cigarettes per day’ should read ‘greater than or equal to 10 cigarettes per day’.

The corrected sentence should read:

This finding mirrors the results of a recent randomised trial that found less of an effect of combination NRT for heavier smokers, defined as smoking greater than or equal to 10 cigarettes per day (Smith *et al.*, 2013).
