

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

OLIVER & BOYD LTD.
EDINBURGH AND LONDON

OCTOBER 1963

VOL. 5 PART 3

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Animal Production publishes papers on original research provided that they have not been, and will not be, published elsewhere in whole, or in part, without the Editors' written permission. Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will also be considered but only as appendices to scientific papers.

Manuscripts should be typewritten in double spacing with wide margins and, preferably, the lines on each page should be numbered. *Two* copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,
A.R.C. Animal Breeding Research Organisation,
6 South Oswald Road, Edinburgh 9.

Manuscripts are not returned with the proofs; authors should therefore retain copies.

Length of papers should not normally exceed the equivalent of 6,000 words, inclusive of tables, text figures and references.

Illustrations (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless authors bear the cost.

Tables should be as simple and as few as possible; if they are very large or numerous a charge may have to be made to authors. When constructing tables, it would be helpful if authors would take into account the size and shape of the pages of *Animal Production*.

ANIMAL BEHAVIOUR

Editor Alastair N. Worden (Huntingdon)

- **Animal Behaviour** is the official journal of the *Association for the Study of Animal Behaviour* and of the *Section of Animal Behavior and Sociobiology (Ecological Society of America and the American Society of Zoologists)* and publishes original papers on animal behaviour and related subjects from contributors in many countries, as well as reports of researches, book reviews and reports of the proceedings of the Association and the Section.

In 1962 considerable expansion of **Animal Behaviour** took place. Not only did the journal increase in size but it more than maintained its position as one of the foremost journals in this field. In 1963 further development has occurred; publication is now three times a year in issues of over 200 pages, an increase of rather more than 50 per cent over 1962. This considerable expansion reflects the increasing importance of the subject and the extent to which **Animal Behaviour** is used by behaviourists and others as one of their major sources of information on the progress of research in this field.

Annual Subscription 100s., U.S.A. and Canada \$17.50

Baillière, Tindall & Cox

A MONTHLY REVIEW OF VETERINARY SCIENCE
Editor: J. A. LAING Chairman of Editorial Board: SIR JOHN RITCHIE

The British Veterinary Journal

The oldest veterinary periodical in the British Commonwealth. It has always maintained the broadest interest in animal welfare with regular articles on breeding and nutrition

Annual Subscription 70s.
U.S.A. & Canada \$12.00

Recent Papers include:

Cockrill: The Future of the Veterinary Profession; International Veterinary Trends. *Donald*: Modern Trends in Animal Health and Husbandry: Livestock Genetics. *Dalling*: Veterinary Education: the First Meeting of the FAO/WHO Expert Panel on Veterinary Education. *Lawson*: Modern Trends in Animal Health and Husbandry: The Management of Fractures in Domestic Animals. Part I. *Inglis/Weipers*: The Effect of Johne's Vaccination on the Efficiency of the Single Intradermal Comparative Tuberculin Test. *Bhatnager/Sadhu*: Measurement of Surface Area in Jamnapuri Goats. *Dalton/Fisher*: Plasman and Blood Volumes in Horses. *Aafjes*: Glyoxylic and Allantoic Acid in the Urine of Cows.

THE SEMEN OF ANIMALS AND ARTIFICIAL INSEMINATION

EDITED BY J. P. MAULE

TECHNICAL COMMUNICATION NO. 15 OF THE COMMONWEALTH BUREAU
OF ANIMAL BREEDING AND GENETICS

A comprehensive and up-to-date review of progress in the artificial insemination of farm livestock, poultry, dogs and laboratory animals.

Extracts from recent reviews :—

. . . a book in which the whole subject of artificial insemination is treated systematically in a full, concise and clear manner . . . extremely suitable for study by all who are connected with A.I.—*Tijdschrift voor Diergeneeskunde*.

. . . is likely to be a standard work for some time to come.—*Veterinary Record*.

. . . is well documented. Techniques and procedures are accurately described and vividly illustrated.—*Journal of Animal Science*.

. . . should be in the library of every A.I. organisation and available for all students and research workers in the field.—*A.I. Digest*.

420 pp. 2000 references 33 illustrations Price 60s.

THE EMPIRE JOURNAL OF EXPERIMENTAL AGRICULTURE

THIS JOURNAL offers agricultural research workers a medium for disseminating the records and results of their investigations on the feeding and management of livestock, cultivation and manuring of crops, trial of farm machinery, agricultural economics, and experimental technique.

Vol. XXXI, No. 123

CONTENTS

July 1963

- A. W. MOORE and E. O. JAIYEBO: The influence of Cover on Nitrate and Nitrifiable Nitrogen Content of the Soil in a Tropical Rain Forest Environment.
- J. L. HAMMERTON: Studies of the Effects of Soil-Aggregate size on the Emergence and Growth of Beet (*Beta vulgaris* L.). IV. Post-Singling Growth
- A. SINGH: A Critical Evaluation of Green-Manuring Experiments of Sugar-Cane in North India
- B. J. MAINSTONE: The effects of Nitrogen and Phosphorus Fertilizers on *Hevea brasiliensis* when applied after Commencement of Tapping
- B. J. MAINSTONE: Residual Effects of Ground-Cover and of Continuity of Nitrogen Fertilizer Treatments, Applied Prior to Tapping, on the Yield and Growth of *Hevea brasiliensis*
- P. A. JONES and J. A. N. WALLIS: A Tillage Study in Kenya Coffee. III. The Long-Term Effects of Tillage Practices upon Yield and Growth of Coffee.
- D. O. NORRIS: A Porcelain-Bead Method for Storing Rhizobium.
- C. F. IBBOTSON: The Effect of Additions of Magnesians Limestone and Magnesium Oxide on Silage Quality
- B. N. BOWDEN: Studies on *Andropogon gayanus* Kunth. I. The use of *Andropogon gayanus* in Agriculture
- A. TROUGHTON: The Root Weight Under Swards of Equal Age, in Successive Years

THE JOURNAL OF AGRICULTURAL SCIENCE

VOL. LXI, PART 1, AUGUST 1963

- RIDLER, B., BROSTER, W. H. and FOOT, A. S. The growth rate of heifers in a dairy herd
 HOLME, D. W., COEY, W. E. and ROBINSON, K. L. The prediction of pig carcass composition from measurements of carcass density.
 CARROLL, M. A., PEARCE, J., BASSETT, J. M., GILLARD, P. B. and LAWRENCE, T. L. J. The effects of age of calves at castration on growth rate, carcass composition and feed efficiency.
 COWLISHAW, S. J. A study of the effects of two methods of grazing poultry on the persistence and palatability of seven herbage species.
 ARNOLD, G. W. and DUDZINSKI, M. L. The use of faecal nitrogen as an index for estimating the consumption of herbage by grazing animals.
 DONEY, J. M. The fleece of the Scottish Blackface sheep. III. The relative importance of the fleece components.
 MARTIN, I. C. A. The influence of diluents and processing time after ejaculation on the revival of deep-frozen bull spermatozoa.
 VAN EIJNATTEN, C. L. M. A study of the development of two varieties of maize at Ibadan, Nigeria.
 NAGA, M. M. A. and EL-SHAZLY, K. The use of the *in vitro* digestion of cellulose as a criterion of energy content.
 HALE, R. W. and COEY, W. E. Genotype-environment interactions in a herd of bacon pigs.
 HERRIOTT, J. B. D. and WELLS, D. A. The grazing animal and sward productivity.
 BREDON, R. M., HARKER, K. W. and MARSHALL, B. The nutritive value of grasses grown in Uganda when fed to zebu cattle. I. The relation between the percentage of crude protein and other nutrients. II. The relation between crude fibre and nitrogen-free extract and other nutrients.

Articles are illustrated with plates and figures

The Journal of Agricultural Science is issued bi-monthly. Subscription (65s. per volume of three parts, two volumes yearly) may be sent to any Bookseller, or to the Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1.

THE BRITISH JOURNAL OF NUTRITION

Shortened Versions of Titles from Vol. 17, No. 3 September 1963

- Nutrition of sledge dogs. By H. T. WYATT.
 Dietary change and amylase and trypsin activities of rat pancreas. By FRANCES HOWARD and JOHN YUDKIN.
 Energy metabolism and growth in rats adapted to intermittent starvation. By P. FÁBRY, R. PETRÁSEK, EVA HORÁKOVÁ, E. KONOPÁSEK and T. BRAUN.
 Buccal mucosa in protein-calorie deficiency in the pig. By BERNARD T. SQUIRES.
 Growth assay with chicks for the lysine content of protein concentrates. By K. J. CARPENTER, BERYL E. MARCH, C. K. MILNER and R. C. CAMPBELL.
 Bound nicotinic acid in dietary wheaten products. By K. MARY CLEGG.
 Respiratory quotients and weight gain of man after eating large quantities of carbohydrate. By R. PASSMORE and YOLA E. SWINDELLS.
 Metabolic consequences of adaptation to muscular work. By JANA PAŘIZKOVÁ and O. POUPA.
 Relationship between vitamin E and encephalomalacia in chicks. By SHOSHANA MOKADI and P. BUDOWSKI.
 Protein requirement of baby pigs. 2. By M. J. MANNERS and M. R. MCCREA.
 Effect of overfeeding on two fat young women. By R. PASSMORE, J. A. STRONG, YOLA E. SWINDELLS and N. EL DIN.
 Vitamin B₁₂ content of raw and cooked articles of Indian diets. By D. K. BANERJEE and J. B. CHATTERJEA.
 Vitamin E activity of α -tocopherylquinone and α -tocopheryhydroquinone in the rat. By J. BUNYAN, D. MCHALE and J. GREEN.
 Utilisation of acetic, propionic and butyric acids by growing heifers. By J. A. F. ROOK, C. C. BALCH, R. C. CAMPLING and L. J. FISHER.
 Severe undernutrition in growing and adult animals. 11. By L. E. MOUNT, D. LISTER and R. A. MCCANCE.

Combined Subscription for The British Journal of Nutrition (4 issues) and The Proceedings of the Nutrition Society (2 issues) is £7 per annum.

Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1

NUTRITION ABSTRACTS AND REVIEWS

published by the

COMMONWEALTH BUREAU OF ANIMAL NUTRITION

Rowett Research Institute, Bucksburn, Aberdeen, Scotland

A quarterly publication bringing together in abstracts whatever is available of the world literature on human and animal nutrition in all its aspects. Each number contains a Review Article dealing with some subject of current interest.

Volume 34, for 1964, costs 220s. and orders are now being recorded. Certain concessions are available to Commonwealth subscribers; details may be obtained from the Secretary, Nutrition Abstracts and Reviews, at the address shown above.

CONSULTATION SERVICE

The Bureau is prepared, within the limits of its information, to answer enquiries from workers in laboratory research, field investigations or nutritional planning, but not from commercial sources, who do not themselves have access to the necessary literature.

BRITISH POULTRY SCIENCE

CONTENTS OF VOLUME 4, PART 2, MAY 1963

- BOWMAN, J. C. and CHALLENGER, N. I. Egg shell strength. A comparison of two laboratory tests and field results.
- BULLOCK, D. W. and JENNINGS, R. C. Estimating average age at first egg for pullets housed in pairs in cages.
- EISEN, E. J., BOHREN, B. B. and MCKEAN, H. E. Source and age of pullets and storage of eggs as factors affecting Haugh unit measurements.
- SPENCER, JAMES E. and JENKINS, NIGEL K. Some effects of supplementing the diet of broiler chicks with flint grit.
- WELLS, R. G. The relationship between dietary energy level, food consumption and growth in broiler chicks.
- FREEMAN, B. M. The gaseous metabolism of the domestic chicken. III. The oxygen requirements of the chicken during the period of rapid growth.
- PAYNE, C. G. and LEWIS, D. Fats and amino acids in broiler rations. 4. Energy-protein balance in finisher rations.
- PEREK, M. and KENDLER, J. Ascorbic acid as a dietary supplement for White Leghorn hens under conditions of climatic stress.
- MURRAY, MARION W. The effect of oiling and heat treating eggs on their subsequent albumen quality.
- BICHARD, MAURICE and MAUND, B. A. The prediction of egg weight and value from samples.
- HORTON-SMITH, C., LONG, P. L. and ROWELL, J. G. Effects of thiabendazole on experimental infestations of *Syngamus trachea*.

This journal is published three times a year. The annual subscription is 60s. (U.S.A. \$10.00), single parts 22s. 6d. (U.S.A. \$3.75). Orders and subscriptions may be sent to any bookseller or direct to the publishers:
