Growth in a Traditional Society

The French Countryside, 1450–1815

Philip T. Hoffman

Philip Hoffman shatters the widespread myth that traditional agricultural societies in early modern Europe were socially and economically stagnant and dependent on wide-scale political revolution for their growth.

“One of the most important books on early modern agriculture to appear in the last two decades. This is a fine example of the cliometric revolution in economic history; it is a book upon which one can build.”

Engines of Enterprise An Economic History of New England

EDITED BY PETER TEMIN

New England's economy has a history as dramatic as any in the world. From an inauspicious beginning—as immigration ground to a halt in the eighteenth century—New England went on to lead the United States in its transformation from an agrarian to an industrial economy. And when the rest of the country caught up in the mid-twentieth century, New England reinvented itself as a leader in the complex economy of the information society. *Engines of Enterprise* tells this dramatic story in a sequence of narrative essays written by pre-eminent historians and economists.

The Development of Modern Spain An Economic History of the Nineteenth and Twentieth Centuries

GABRIEL TORTELLA

TRANSLATED BY VALERIE J. HERR

This reinterpretation of the history of modern Spain from the Enlightenment to the threshold of the twenty-first century explains the surprising changes that took Spain from a backward and impoverished nation, with decades of stagnation, civil disorder, and military rule, to one of the ten most developed economies in the world. The culmination of twenty years' work by the dean of economic history in Spain, the book reveals views and approaches little explored until now.

Wages and Labor Markets in the United States, 1820–1860

Robert A. Margo

“[Margo’s] series are sure to become the standard sources for scholars interested in the economic history of [the 1820s–1860s]. . . . [A]n important contribution to the statistical and quantitative underpinnings of our understanding of the economic history of the United States. Through extensive archival research and careful analysis Robert Margo has added significant detail and clarity to our understanding of the antebellum period.”

A treasure trove of economic literature
HAS INCREASED IN VALUE

Announcing *Volume V* – a new supplement to *The Goldsmiths' - Kress Library of Economic Literature*

"... this collection is without qualification, the finest such collection in the world."

– Journal of Economic History

In 1976, Primary Source Microfilm published its *Goldsmiths'-Kress Library of Economic Literature* collection. By bringing together the holdings of two libraries at the University of London (Goldsmiths') and Harvard University (Kress) – unrivaled for their early works in the literature of economics and business – this treasured collection became the definitive research resource in economic history.

Now, the long-awaited *Volume V: Additions to the Printed Books, Periodicals and Manuscripts to 1850* reflects the range of the literature of economics in Europe in the 17th to 19th centuries, including topics such as agriculture, colonies, commerce, finance, politics, slavery, socialism, trades and manufacturers and more. Undoubtedly, *Volume V* will take its place alongside its predecessors as the world's major resource in the field of economic literature.

THE LIBRARY COMPANY OF PHILADELPHIA

Program in Early American Economy and Society

2001-2002 Fellowships

The Library Company of Philadelphia's Program in Early American Economy and Society will award one dissertation fellowship and one advanced research fellowship, tenable for nine consecutive months from September 2001 to May 2002 and carrying stipends of \$15,000 and \$30,000, respectively. The Program will also award four one-month research fellowships carrying stipends of \$1,600, tenable from June 2001 to May 2002.

Designed to promote scholarship on the origins and development of early American business and the economy to roughly 1850, these fellowships will provide scholars the opportunity to use the extensive printed and manuscript collections related to the history of commerce, finance, technology, manufacturing, agriculture, internal improvements, and economic policy-making that are held by the Library Company and by numerous other institutions in its vicinity.

APPLICATION DEADLINE IS MARCH 1, 2001, with a decision to be made by April 15. To apply, send four copies each of a c.v., a detailed description of the nature of the research to be undertaken during the fellowship period, a relevant writing sample of no more than 25 pages, and two letters of recommendation sent by separate mail to: The Library Company of Philadelphia, Program in Early American Economy and Society, 1314 Locust Street, Philadelphia, PA 19107. (For one-month fellowships omit the writing sample and the second reference.) For more information about the Program and fellowships, contact Cathy Matson, Program Director, at cmatson@librarycompany.org.

MACROECONOMIC DYNAMICS

Editor

WILLIAM A. BARNETT

Washington University, St. Louis

Macroeconomic Dynamics

publishes theoretical, empirical and quantitative research of the highest standard. Papers of high quality are welcome from all areas of advanced macroeconomics and allied fields, so long as the research is founded in a rigorous scientific approach. Major advances in macroeconomics without immediate policy applications

also are accepted, if they show potential for application in the future. Occasional book reviews, announcements, conference proceedings, and interviews are also published. An electronic version of the journal is published simultaneously with the paper version, enabling immediate access to the best current research in macroeconomics.

The New Russia
Transition Gone Awry

Edited by LAWRENCE R. KLEIN AND MARSHALL POMER

Foreword by Mikhail Gorbachev, Preface by Joseph Stiglitz

"No writing or oratory in history has been more replete with bad advice than that given Russia in the last decade. Here, for a change, is something very good—the best, in fact, that truly competent and responsible American and Russian scholars have to offer. I strongly recommend it."

The State and Freedom of Contract

Edited by HARRY N. SCHEIBER

"This book is something of a landmark. It crystallizes a generation's work of revisionist scholarship that gives the core ideas of 'freedom of contract' a long prehistory, reevaluates its content and sources, and explores its relation to property doctrines and ideology, to labor and environmental contexts, and to the emerging future of the global economy."

Bimetallism: An Economic and Historical Analysis

Angela Redish

This book presents a history of Western monetary systems and explains why the system was preferred to a gold standard before 1800. Professor Redish argues that the technological ability to issue fiduciary monies, and a commitment mechanism to prevent opportunistic governments changing the ratio between the currency and a unit of gold, were (frequently overlooked) prerequisites for the emergence of the Classical gold standard.
