ALDER MICHAEL D.: Locally trivial homotopy functors and their domain of representation	310
ARAD ZVI: Π' -closure of finite Π -solvable groups	118
BALDWIN J. T. and SAXL JAN: Logical stability in group theory	267
BEN-ISRAEL ADI: <i>See</i> BEN-TAL	341
BEN-TAL AHARON and BEN-ISRAEL ADI: A generalisation of convex functions via support properties	341
BYRD RICHARD D. and MENA ROBERTO A.: Chains in generalised Boolean lattices	234
CAMERON NEIL: Lattices, complements and tight Riesz orders	368
CARLSON JON F.: Free modules over some modular group rings	49
CHONG-KEANG LIM: Tripleableness of Pro- C -groups	299
COOK DONALD: Totally pure sequences and totally pure projection	5
DAVEY BRIAN A. and RIVAL IVAN: Finite sublattices of three generated lattices	171
DAVIS G. and LOCI É.: Compatible tight Riesz orders on ordered permutation groups	317
DYER JOAN L.: A criterion for automorphisms of certain groups to be inner	179
ELKINGTON G. B. and HAMMER J.: Lattice points in a convex set of given width	504
ERDŐS P. and RICHMOND B.: Concerning periodicity in the asymptotic behaviour of partition functions	447
ERDŐS P. and SZEMERÉDI A.: On multiplicative representation of integers	418
FLEISCHER ISIDORE: Even every join-extension solves a universal problem	220
FRICKE G. H. and POWELL R. E.: Bounded index and summability methods	79
GAMBLER F.: Charles Ernest Weatherburn	1
GARDINER A.: Homogeneous graphs and stability	371
GILES J. R.: Uniformly weak differentiability of the norm and a condition of Vlasov	393
GILES J. R. and WALLIS JENNIFER SEBERRY: George Szekeres	385
GRAHAM R. L. and LEHMER D. H.: On the permanent of Schur's matrix	487
GRANT DOUGLAS D.: Some remarks on fixing subgraphs and smoothly embeddable subgraphs	120
GRANT DOUGLAS D.: Stability of line graphs	457
GRILLET PIERRE ANTOINE: A coherence theorem on Schützenberger groups	129
GROSS KENNETH B. and LEONARD PHILIP A.: Adders for the patterned starter in non-abelian groups	185
HALL MARSHALL, JR.: Group properties of Hadamard matrices	247
HAMMER J.: <i>See</i> ELKINGTON	504
HARMANCI ABDULLAH: On the commutativity of some classes of rings	376
HERZOG MARCEL and PRAEGER CHERYL E.: On the fixed points of Sylow subgroups of transitive permutation groups	428
HULE HARALD and MÜLLER WINFRIED B.: On the compatibility of algebraic equations with extensions	381
HUSAIN TAODIR and NG SHU-BUN: On the boundedness of multiplicative and positive functionals	498
JOSEPH JAMES E.: Characterizations of maximal topologies	334
KEISLER H. JEROME: Six classes of theories	257
KRAKOWSKI DON: A note on Galois groups of algebraic closures	12
KRAKOWSKI DON: Upper and lower fields for profinite groups of given cardinality	16
LAU KA-SING: On strongly exposing functionals	362
LAUSCH H.: Inverse semigroups with certain universal properties	166
LEI TACK-WANG: On the generalized Riemann integral and stochastic integral	64

LEHMER D. H.: Strong Carmichael numbers	508
LEHMER D. H.: <i>See</i> GRAHAM	487
LEHMER EMMA: Existence criteria for supplementary difference sets	438
LEONARD PHILIP A.: <i>See</i> GROSS	185
LITTLE CHARLES H. C.: A short proof of a recent theorem of G. Szekeres	278
LOCI E.: <i>See</i> DAVIS	317
MENA ROBERTO A.: <i>See</i> BYRD	234
