

Special Offer to Medical Libraries and Institutions

Now is the Time to
Get a Complete Set of
Prehospital and Disaster Medicine

We have a limited supply of back issues of *Prehospital and Disaster Medicine* (PDM) in storage. Therefore, we are offering you a nearly complete set of Journals for the cost of shipping the set to you. We will do this if you agree to subscribe to PDM for a minimum period of three years at the price of [US] \$400/year (plus shipping: institutional rate). Sets will be distributed on a first come, first serve basis. If you are interested, please send an e-mail containing your address and billing information to **pdm@medicine.wisc.edu** or fax it to **(+1) (608) 265-3037**. We will send your institution all of the issues we have left in stock. Thus, you help us and we help you.

Thank you in advance for your interest.

Call for Artwork

The cover design of *Prehospital and Disaster Medicine* calls for a photograph of relevant artwork.

If you have access to artwork that you think may be appropriate, please submit a slide or high-resolution print (in TIFF or JPG format) to:

Dana Schmidman, Editorial Assistant
3330 University Avenue
Madison, Wisconsin 53705 USA
E-mail: ds5@medicine.wisc.edu

All submissions will be evaluated by a panel of judges.
Items not selected will be returned to the sender.

About the WADEM Nursing Section

The Nursing Section of WADEM strives to be the organizational vehicle welcoming and representing nurses (or other professionals interested in nursing issues) from all countries with an intent and desire to strengthen and improve the practice and knowledge of disaster nursing throughout the world.

Mission

The mission of the Nursing Section of WADEM is to foster international collaboration among nurses involved in research, education, management, and practice in pre-hospital, emergency, public health, and/or disaster care.

Purpose

The purposes of the Nursing Section of WADEM are to:

1. Define international nursing issues for public health care and disaster health care;
2. Exchange scientific and professional information relevant to the practice of disaster nursing;
3. Encourage collaborative efforts enhancing and expanding the field of nursing disaster research;
4. Encourage collaboration with other international nursing organizations;
5. Inform and advise WADEM of matters related to disaster nursing.

Bringing Simulation to Life

SimMan®

There is a growing awareness that health care is behind other high risk operations in its attention to ensuring basic safety and that there is a need to grasp the scale of the problem ^(1,2).

Use of patient simulation is considered an important part of the solution as many scenarios can be presented including uncommon but critical situations where a rapid response is needed. Errors can be allowed to occur and reach their conclusion without any risk to a patient. Team member interactions and leadership can also be explored and developed.

Two manikin-based simulators from Laerdal, SimMan® and AirMan®, represent a new generation of affordable and portable solutions to meet these needs.
