Galileo and the Church

Political Inquisition or Critical Dialogue?

Rivka Feldhay

This book questions the traditional 'grand narratives' of science and religion in the seventeenth century. The well-known contradictions between the documents of Galileo's 'trials' are reread as expressions of the contradictory nature of the Counter Reformation Church.

Thomas Cranmer

A Life

Diarmaid MacCulloch

Thomas Cranmer was the architect of the Anglican Book of Common Prayer. He was the Archbishop who guided England through the early Reformation, and Henry VIII through the minefields of

divorce. This is the first major biography for more than three decades, and the first for a century to exploit rich new manuscript sources in Britain and elsewhere.

Diarmaid MacCulloch, one of the foremost scholars of the English Reformation, traces Cranmer from his east-midland roots to early Tudor

Cambridge, into the household of the family of Anne Boleyn, and through the political labyrinth of the Henrician court. By then a major English statesman, living the life of a medieval prince-bishop, Cranmer navigated the church through the king's vacillations and finalised two successive English Prayer Books.

From this vivid and fascinating account Cranmer emerges a more sharply-focussed figure than before, more conservative early in his career than admirers have allowed, more evangelical than Anglicanism would later find comfortable. A hesitant hero with a tangled life story, his imperishable legacy is his contribution to the shape and structure of English speech and, through his Prayer Book, to the moulding of an international language and the theology it so convincingly expressed.
