FOCUS ISSUE
De Novo Carbon Nanomaterials:
Opportunities and Challenges in a Flat World

VOLUME 28 • NO 7
APRIL 14, 2013

A publication of the

MRS MATERIALS RESEARCH SOCIETY
Advancing materials. Improving the quality of life.

CAMBRIDGE
UNIVERSITY PRESS

Journal of MATERIALS RESEARCH

JOURNAL OF MATERIALS RESEARCH (JMR) is an interdisciplinary journal serving the materials research community through publication of original research articles and invited reviews encompassing the synthesis, processing, characterization, properties, and theoretical description of materials.

JMR publishes new research that demonstrates a significant impact or advance of scientific understanding of interest to the materials research community. Engineering studies and applications to commercial products are beyond the scope of *JMR* and should be submitted elsewhere. Manuscripts that report data without giving an analysis, interpretation, or discussion are only acceptable if the data are sufficiently important that publication is expected to lead to significant new studies or advancements in science or technology.

Manuscripts must be submitted to the *Journal of Materials Research* electronically via ScholarOne manuscripts, at the following website address: <http://mc.manuscriptcentral.com/jmr>. Electronic submission expedites the review process and also allows authors to track the status of their manuscripts at any time. Complete instructions are available on the ScholarOne site and authors will be prompted to provide all necessary information.

Manuscripts must be prepared in English, using a word processing program, formatted to fit 8½ x 11 in. paper, and saved as .doc, .pdf, .rtf, or .ps files. Separate graphics files (.eps and .tif) must be uploaded for each figure. Authors may also upload .xls or .ppt supplemental files as part of the manuscript submission process. All of these files will be converted to .pdf format. Detailed instructions are available on the submission web site. During submission, authors must enter all coauthor names and e-mail addresses. Manuscripts will not be considered for peer review until this information is provided. Authors must also enter manuscript keywords using the *JMR* keyword list (located on the submission web site). Authors who are not fluent in English must have their manuscript edited for correct English grammar and sentence structure before submission.

Authors are expected to follow the conventional writing, notation, and illustration style prescribed in *Scientific Style and Format: the CSE Manual for Authors, Editors and Publishers, 7th edition, 2006*. Authors should also study the form and style of printed material in this journal. SI units should be used. Authors should use an identical format for their names in all publications to facilitate use of citations and author indexes.

Manuscripts are accepted with the understanding that they represent original research, except for review articles, and that they have not been copyrighted, published, or submitted for publication elsewhere. Authors submitting manuscripts to *JMR* who have related material under consideration or in press elsewhere should send a copy of the related material to *JMR* at the time of submission. While their manuscripts are under consideration at *JMR*, authors must disclose any such related material. To expedite the review process, authors may provide names and contact information for up to four possible reviewers.

Articles are original research reports that include complete, detailed, self-contained descriptions of research efforts. All articles must contain an abstract and section headings.

Commentaries and Reviews: *Journal of Materials Research* occasionally publishes commentaries on topics of current interest or reviews of the literature in a given area. If an author proposes a review, the title, abstract, and a brief outline should be submitted to the Editorial Office via e-mail for prior consultation on the appropriateness of the topic.

Color policy: It is not necessary for authors to indicate that a figure should be displayed in color online. *JMR* will assume that any author who submits figures in color wants and agrees to their being produced in color online. Figures may be printed in color at the author's request for an additional charge. Color figures must be submitted before the paper is accepted for publication, and cannot be received later in the process. Authors cannot submit two versions of the same figure, one for color and one for black and white; only one version can be submitted. Authors need to carefully consider the following when submitting figures in color that will

be published in color online only: 1) The colors chosen must reproduce effectively and the colors should be distinguishable when printed in black and white; 2) The descriptions of figures in text and captions must be sufficiently clear for both online and print copy. When submitting figures to be in color online only, authors should include the phrase <<color online>> in the figure captions. This is the author's responsibility. Authors will see these color figures when viewing their author page proofs on screen. Authors should always print their page proofs in black and white to see how they will appear in print. Authors will NOT be allowed to submit color figures to replace black and white figures in the page proof stage. To maximize the probability that figures will be published in color online and also print as good quality black and white or grayscale graphics, authors are encouraged to follow these figure submission guidelines: 1) Submit a color graphic in Tagged Image File Format (.tif); 2) Submit color graphics with a resolution of at least 300 dpi (600 dpi if there is text or line art in the figure); 3) Submit color graphics in CMYK format; 4) Submit figures sized to fit the actual column or page width of the journal so that reduction or enlargement is not necessary; 5) Submit multipart figures in one single electronic file.

Journal of Materials Research Subscription Prices (2013)

[includes on-line web access]

	USA and Poss.	Non-US	Online Only
MRS Regular and Student Members	\$248.00	\$303.00	\$100.00
Institutions	\$1568.00	\$1683.00	\$1442.00

Journal of Materials Research (ISSN: 0884-2914) is published twenty-four times a year by Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013 – 2473 for the Materials Research Society. Periodical Postage Paid in New York, NY and additional mailing offices. **POSTMASTER:** Send address changes to *Journal of Materials Research*, c/o Journals Dept., Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2113, USA.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to Subscription Fulfillment, *Journal of Materials Research*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2133, USA (for USA, Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge, CB2 8RU, England (for UK and elsewhere). Allow at least six weeks advance notice. For address changes, please send both old and new addresses and, if possible, include a mailing label from a recent issue. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price.

Reprints of individual articles in *Journal of Materials Research* may be ordered. For information on reprints, please contact Cambridge University Press.

Individual member subscriptions are for personal use only.

Journal of MATERIALS RESEARCH

Editor-in-Chief: Gary L. Messing, *The Pennsylvania State University*

Associate Editor, Biomaterials: Adrian Mann, *Rutgers University*

Associate Editor, Metallic Materials: Jürgen Eckert, *IFW Dresden, Germany*

Associate Editor, Polymers and Organic Materials: Howard E. Katz, *Johns Hopkins University*

Guest Editors for Focus Issue: De Novo Carbon Nanomaterials: Opportunities and Challenges in a Flat World

Cengiz S. Ozkan, *University of California, Riverside*

Markus J. Buehler, *Massachusetts Institute of Technology*

Nicola M. Pugno, *Università di Trento, Italy*

Kang Wang, *University of California, Los Angeles*

Editorial Office: Eileen Kiley Novak, *Director of Communications, Materials Research Society, Warrendale, PA*

Ellen W. Kracht, *Publications Manager, Materials Research Society, Warrendale, PA*

Linda A. Baker, *JMR Editorial Assistant, Materials Research Society, Warrendale, PA*

Lorraine K. Wolf, *JMR Publishing Assistant, Materials Research Society, Warrendale, PA*

2013 Principal Editors:

Lennart Bergström, *Stockholm University, Sweden*

Robert C. Cammarata, *Johns Hopkins University*

Edwin A. Chandross, *MaterialsChemistry LLC*

Ping Chen, *Dalian Institute of Chemical Physics, China*

Yang-T. Cheng, *University of Kentucky*

DE NOVO CARBON NANOMATERIALS: OPPORTUNITIES AND CHALLENGES IN A FLAT WORLD

909–911 **Introduction** Cengiz S. Ozkan,
Markus J. Buehler,
Nicola M. Pugno, Kang Wang

ARTICLES

- 912–917 **Chrysanthemum like carbon nanofiber foam architectures for supercapacitors** Wei Wang, Shirui Guo, Mihrimah Ozkan, Cengiz S. Ozkan
- 918–926 **Assembled graphene oxide and single-walled carbon nanotube ink for stable supercapacitors** Shirui Guo, Wei Wang, Cengiz S. Ozkan, Mihrimah Ozkan
- 927–932 **Vertically aligned carbon nanotube-based electrodes for hydrogen production by water electrolysis** Xiaozhi Wang, Hang Zhou, Peng Li, Wenmiao Shu
- 933–939 **Superior thermal interface via vertically aligned carbon nanotubes grown on graphite foils** Sabyasachi Ganguli, Ajit K. Roy, Robert Wheeler, Vikas Varshney, Feng Du, Liming Dai
- 940–951 **Thermal transport in 3D pillared SWCNT–graphene nanostructures** Jungkyu Park, Vikas Prakash
- 952–957 **Effect of defects on graphitization of SiC** Göknur Cambaz Büke, Gleb Yushin, Vadym Mochalin, Yury Gogotsi
- 958–968 **Synchronous chemical vapor deposition of large-area hybrid graphene–carbon nanotube architectures** Maziar Ghazinejad, Shirui Guo, Wei Wang, Mihrimah Ozkan, Cengiz S. Ozkan
- 969–975 **Self-assembly synthesis and mechanism investigation of branched core–shell hybrids of tin nanowires and carbon nanotubes** Ruying Li, Yong Zhang, Xueliang Sun
- 976–983 **Mimicking water striders' legs superhydrophobicity and buoyancy with cabbage leaves and nanotube carpets** Emiliano Lepore, Mauro Giorcelli, Chiara Saggese, Alberto Tagliaferro, Nicola Pugno
- 984–997 **Compressive response of vertically aligned carbon nanotube films gleaned from in situ flat-punch indentations** Siddhartha Pathak, Nisha Mohan, Parisa Pour Shahid Saeed Abadi, Samuel Graham, Baratunde A. Cola, Julia R. Greer
- 998–1003 **Synthesis and optical property of P3HT/carbon microsphere composite film** Yongzhen Yang, Jingjing Song, Yong Li, Xuguang Liu, Bingshe Xu
- 1004–1011 **Length-dependent performances of sodium deoxycholate-dispersed single-walled carbon nanotube thin-film transistors** Rongmei Si, Hong Wang, Li Wei, Yuan Chen, Zhenfeng Wang, Jun Wei
