

Chief Engineer

for a major
aerospace/air defence company

circa £20000 plus car

West Country

This is a key appointment with a long-established defence systems company with a world-wide reputation for excellence in innovation, design and precision engineering. As Chief Engineer you will lead the Aerospace and Air Defence Division within the company's West Country based Engineering Centre.

Reporting to the Technical Director, your prime role will be to provide the highest standards of technical and managerial leadership for a team of some 60 qualified engineers and technical support staff involved in the design and development of aerospace equipment. You will make a significant contribution to the company's continued success within highly competitive international markets through provision of cost effective solutions to customers' specifications and taking part in marketing activities.

This position calls for a seasoned mechanical engineer, probably aged 35-45, with a background of

successful management preferably within the aerospace/air defence industries. Knowledge of aerospace control and actuation of energy absorption systems is essential; familiarity with modern electronic control system procedures would be an advantage.

Salary negotiable to around £20,000 plus car and an excellent benefits package including generous relocation assistance.

Austin Knight has been retained to handle initial applications. Please telephone Terry Kennedy for an application form on Egham (0784) 37096. Or write to him enclosing full c.v. and quoting ref: TK100, Austin Knight Advertising UK Limited, 66a High Street, Egham, Surrey TW20 9EY.
